Letters to Editor

Dear Editor,

IEEMA is an organization that I have been in touch with for the past 31 years and have been utilizing the magazine for updating my knowledge from time to time but in a limited way as far as my work is concerned.

My small suggestion is that magazine should enlighten and educate the people about the best practices that are being implemented all over the world and should bring to the notice of the authorities concerned so that the same can be implemented.

T Jagath Reddy
Director, Tolangana Transco

Dear Editor,

The IEEMA Journal that is being published on monthly basis is definitely useful and beneficial to us. It provides an insight to the current market scenario with relation to the Electrical industry / business in india and abroad .

On regular basis we are using the statistical data published in 'Basic Prices and Indices' for making our Price Adjustment Claims to different Clients. In case of any queries with IEEMA regarding their publication we are getting prompt replies / clarification from various concerned authority.
