

Indian Journal of Electrical Engineering and Computer Engineering

Volume 7, Number 1 (2017)

Contents

- Analysis of Security in Body Sensor Networks Using Binary Sequences** 1-6
Sharmila.P, Pavithra.S and Jenila Rachel. J
- Design and Analysis of 128 Bit Area Efficient Carry Select Adder** 7-15
P. Ramya[#], K. Rambabu[#], Y. Sudhakar^{#3}
- Analysis of Gauss-Hermite Kalman Filter-Based Road
Extraction Algorithms in Satellite Imagery** 17-44
¹K.Madhan Kumar, ²R.Kanthavel, ³A.Velayudham
- A Novel Kalman Filter based Channel Estimation
Algorithm in OFDM Systems** 45-54
Prof. S. Sathish¹ and Dr. V. Palanisamy²
- Performance Evaluation of Variable frequency PDPWM Technique
for an Trinary Hybrid Multilevel Inverter** 55-70
M.Sudhakaran¹ and R.Seyezhai²
- Modelling and Simulation of Matrix converter with State-Space -qdo
Model and S-transformation for improving performance
of permanent magnet synchronous generator** 71-86
¹B.Vaikundaselvan and ²Dr.Ranithottungal
