

# International Journal of ADVANCES IN INFORMATION TECHNOLOGY

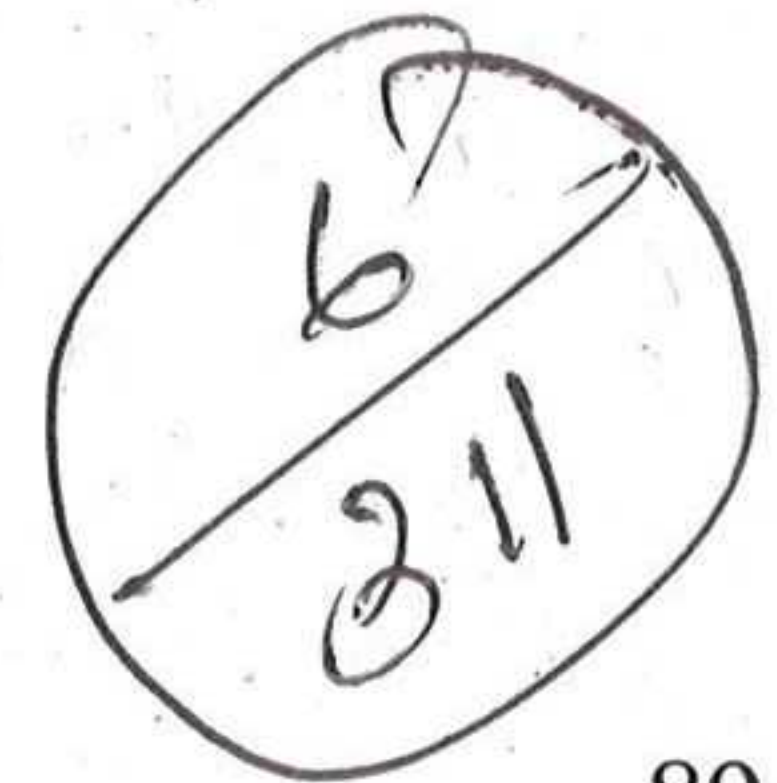

• Volume 4

• Number 2

• July-December 2015

## CONTENTS

1. Totally Unconstrained Handwritten Character Recognition using Improved BP ..... 89-93  
Neural Network  
*Amit Choudhary, Rahul Rishi, Savita Ahlawat & Vijaypal Singh Dhaka*
2. Database Intrusion Prevention Cum Detection System with Appropriate Response ..... 95-100  
*Alka Jaiswal & Sweta Jain*
3. Recent Advances in Checkpointing Techniques in Mobile Computing Systems ..... 101-108  
*Prachi Maheshwari, Kamal Kant & Lalit K. Awasthi*
4. A Comparative Study of Cluster-based Data Replication ..... 109-111  
Techniques for MANETs  
*Pooja Sharma, Kamal Kant & Naveen Chauhan*
5. Software Engineering Issues from the Cloud Application Perspective ..... 113-117  
*Bharat Chhabra, Dinesh Verma & Bhawna Taneja*
6. Detection of Malicious Transactions in DBMS ..... 119-121  
*Ayushi, Anisha Sharma & Reena Bansal*
7. Evaluate the Optimum Size of Railway Retention Tank by Simulation ..... 123-127  
*Er. Manu Raj Moudgil & Er. Rajpreet Kaur*
8. Novel Approach of Accurate Iris Localisation form High Resolution Eye ..... 129-134  
Images Suitable for Fake Iris Detection  
*Rajesh Bodade & Sanjay Talbar*
