- ✦ A Development of Technology for Making Porous Metal Foam Castings with the Implementation of Box-Behingen Design 1-19
Shah Dawood. A.K., and Mohamed Nazirudeen. S.S.
- ✦ Analysis of Supply Chain Risk Mitigation using Graph Theory, Matrix Determinant Method and C Programming for an Apparel Industry 21-32
C. Krishnaraj, and K.J.N. Mohannasundaram
- ✦ Deep Drawing Process Optimization - An Evolutionary Approach 33-43
Kakandikar G.M., and Nandedkar V.M.
- ✦ Analysis and Modeling of Built Up-Base Nose Size and its Effect on Tool Flank Wear when Turning Steels 45-60
S. Charles, P. Venugopal, and R. Bright Reginold Raja
- ✦ Study of Some Aspects of Burnishing on the Surface Characteristics of Brass Material 61-74
P.S. Dabeer, and G.K. Purohit
- ✦ Modular Manufacturing 75-83
C. J. Rao, D. Nageswara Ra, and D. S. Sudheer
- ✦ Improved Energy Efficiency for CFC Domestic Refrigerators Retrofitted with Ozone-Friendly HC Refrigerant Mixture (Propane & Propylene) 85-97
Sameer Vaidya, Alka Agrawal, R.K. Dave
- ✦ Two-Phase Flow - A Critical Review 99-110
Kumar S., Arora A., and Chandra H.
