CONTENTS

Papers

- | | |
|---|----|
| Current-mode resistorless sinusoidal oscillators and a dual-phase square-wave generator using current-controlled current-differencing transconductance amplifiers and grounded capacitors
Hung-Chun Chien | 7 |
| Synthesis, microstructure and mechanical properties of Al-Si-Mg alloy hybrid (zircon + alumina) composite
T Satish Kumar, R Subramanian, S Shalini, J Anburaj & P C Angelo | 20 |
| Investigation of mechanical properties of fly ash and Al ₂ O ₃ reinforced A356 alloy matrix hybrid composite manufactured by improved stir casting
S G Kulkarni, J V Menghani & Achchhe Lal | 27 |
| Tribological and dynamic mechanical analysis of epoxy based hybrid sisal/jute composite
M K Gupta & R K Srivastava | 37 |
| Comparative evaluation on the performance of nanostructured TiAlN, AlCrN, TiAlN/AlCrN coated and uncoated carbide cutting tool on turning En24 alloy steel
T Sampath Kumar, S Balasivanandha Prabu & T Sorna Kumar | 45 |
| Constitutive modeling of commercial pure titanium during hot deformation in alpha and beta phase fields
Hamed Mirzadeh | 60 |
| Increasing machinability of grey cast iron using cubic boron nitride tools: Evaluation of wear mechanisms
Luka Čerče & Franci Pušavec | 65 |
| Effect of surface treatments on wear resistance of spring steel wire as a work-piece material of a fishing net-weaving machine component
Naphatara Intanon & Charnnarong Saikaew | 79 |
| Durability of composite cements containing granulated blast-furnace slag and silica nano-particles
Mohamed Heikal, S Abd El Aleem & W M Morsi | 88 |
