POINT OF VIEW: Discussion of calculation method on ultimate bearing capacity of composite piles
Yue Jain-Wei, Xu An-quan, Song Da and Zheng Kai

Cover: Artist sketch of Shanghai Tower, China.

Height: To Tip - 632 m / 2,073 ft. Height: Architectural - 632 m / 2,073 ft.

Height: Observatory - 561.3 m / 1,841 ft.

Floors Above Ground - 128. Floors Below Ground - 5

Owned by the Shanghai city government, it is the tallest of the world's first triple adjacent super-tall buildings in Pudong, the other two being the Jin Mao Tower and the Shanghai World Financial Center. Its tiered construction, designed for high energy efficiency, provides nine separate zones divided between office, retail and leisure use.
