

# International Journal of COMPUTER ENGINEERING AND SOFTWARE TECHNOLOGY

Volume 6

Number 2

July-December 2015

## CONTENTS

Study on Use Case Model for Service Oriented Architecture Development	<i>N. Sasikala &amp; K. Rangarajan</i>	109-113
Securing Grid against Distributed Denial of Service Attack using an Entropy based Anomaly Detection System	<i>Sumit Kar &amp; Bibhudatta Sahoo</i>	115-119
Layer based classification of RSI for Feature Extraction	<i>S. Sasikala, N. Radhakrishnan &amp; C. Jothivenkateswarun</i>	121-125
Benchmarking Robustness of Real Time Operating System Related to Soft-Errors	<i>Satish Addanki &amp; G. Sasikala</i>	127-131
Identification of Fetal Heart Rate After Separating Maternal ECG and Fetal ECG Using Independent Component Analysis Algorithm	<i>N. Arunkumar &amp; V. S. Balaji</i>	133-134
Open problems in Exception Handling in C++: A Software Engineering Perspective	<i>Saravanan, M. S. &amp; Rama Sree, R. J.</i>	135-139
Study of Possible Packets travelling algorithm for Effective Mobile ad-hoc Network	<i>T. Sujitha, R. Vijayakumari &amp; D. Vedhanayaki &amp; Ri. Minu</i>	141-146
Event Driven Hardware for the Event Driven Architecture Through NANO Computing Models	<i>Joby Joseph &amp; A. Clementking</i>	147-150
A Survey of Feature Subset Selection Algorithms	<i>Gypsy Nandi &amp; Anjan Das</i>	151-156
E-LEARNING	<i>Madhu Bala, Neha, A. &amp; Sai Bhavya, A.</i>	157-160
Intrusion Detection Techniques for Wireless Local Area Networks (Wlan)	<i>Jatinder Singh, Lakhwinder Kaur &amp; Savita Gupta</i>	161-167
