

International Journal of Computer and Internet Security

Volume 8, Number 2 (2016)

Contents

- Fuzzy Based Unsupervised Change Detection Using GRAP Based Digital Surface Model** 91-97
K. Ramya and Dr. G. Kavitha
- Detection of Skin Cancer using Color and Texture Features** 99-104
S. Saranya¹ and S.P. Kavya²
- Unsupervised Color Image Segmentation Using Dual Tree, Som** 105-110
P. Mariappan and Manikandan A.
- Fully Homomorphic Encryption for Cloud Computing and Applications in ICT** 111-115
N. B. Okelo and Richard Omollo*
- LiFi - An Alternative Approach to Energy Efficient Wireless Communication** 117-127
M. Vijaypal Reddy
- Ten Dimensional Cellular Automata for Elimination of Aging and Disease** 129-135
Dr. P. Kiran Sree and Smt. SSSN Usha Devi N
- Design and FPGA Implementation of a Novel Square Root Evaluator based on Vedic Mathematics** 137-143
Jaspreet Kaur¹ and Nirmal Singh Grewal²
- Study of Protocols Associated Security Attacks and Proposing Simplified Method for Improvisation** 145-152
Kuldeep Tomar¹ and S.S. Tyagi²

- An Efficient Analysis of Resource Management in WiMAX Network** 153-161
Mohit Kumar Saini¹ and R. K. Chauhan²
- Wavelet-ICA based Denoising of Electroencephalogram Signal** 163-168
Monika Sheoran¹, Sanjeev Kumar², Amod Kumar³
- Survey on Online Social Networking Threats and Solutions** 169-178
Smita Vishnu More and Madhumita Chatterjee
