- Application of Artificial Neural Network for Predicting Fertilization Potential of Frozen Spermatozoa of Cattle and Buffalo *M. Durairaj & K. Meena* 97-106
- Support Vector Machine with Polynomial Kernel based on Intrusion Detection Data *M. Govindarajan & R. M. Chandrasekaran* 107-112
- Design and Analysis of a Novel Human Computer Interface for a Web-based on-line Collaborative Remote Embedded Application *Jagadeesh Chandra A. P. & R. D. Sudhaker Samuel* 113-123
- A Phonetic Dictionary and Grapheme-Phoneme Rule Based Bangla TTS System *B. B. Chaudhuri, C. R. Das & Anrudhha Sen* 125-132
- Performance Enhancement by Splitting SPD Used in IPsec of IPng *A. Thakur, S. C. Panigrahi & G. Suboo* 133-140
- Security Assurance by Best SRE Practices *S. K. Pandey, Mustafa K. Ahson S. I. & Rehman S.* 141-147
- Image Enhancement through Pixel Components *K. Selvam & B. Poorna* 149-156
- New Perspectives of Soft Computing and Fourier Transform in Industrial Applications *S. K. Lenka, Sasmita Nayak & S. S. Nayak* 157-164
- Secure Protocol for Efficient BPEL Data Exchange *P. Sumathi & M. Purnithavalli* 165-172
- An Aspect-based Language Library Model for Multilingual Software *V. Prasanna Venkatesan & S. Kuppuswami* 173-190
- A Novel Approach of Data Mining with On-line Analytical Processing *S. Santhosh Baboo & S. Sivakumar* 191-198
- Analysis of Affective Speech for Attitude Prediction of Speaker: Experimental Study and Design *A. R. Panat & V. T. Ingole* 199-209
