

INTERNATIONAL JOURNAL OF COMPUTING AND APPLICATIONS

VOLUME 11

NUMBER 2

JULY-DECEMBER 2016

CONTENTS

20
156

- Packet Loss Control using Early Random Control at The Network Edge 91-97
*Pavankrishna K. Singh B. and
M. Sreerama Murty*
- Security Enhanced Cloud Computing: From Single to Multi-Clouds 99-107
*K. E. V. Rama Narasimhani and
Y. Siva Prasad*
- Gaussian Mixture Model Application for Image Equalization and 109-117
Contrast Enrichment
Anil Babu and P. A. Abdul Saleem
- Accomplishing Secure Personal Health Records Using Attribute 119-127
Based Encryption in Cloud Computing
*A. Ram Prasad Reddi and
K. Venkateswara Rao*
- Ranking Adaptability: A Quantitative Measure in Ranking 129-136
Model Adaptation
J. Rukesh Babu and S. Suresh
- DCD Algorithm: A Fast Method to Detect the Cuts in WSNs 137-145
N. V. Sudhakar and G. Draksha
- A Study of Various Risk Extenuating Techniques in MANET Atmosphere 147-153
M. Chaitanya Kishor Reddi and S. M. Bhasha
- An Appraisal on the Architectures of Data Security in Cloud 155-162
Storage Infrastructure
B. Raju and Ch. Aruna
- Intrusion Detection in Cloud for Mobile Phones 163-169
P. Manoj Kumar and P. Anitha Rami
- An Algorithm for Automatic Detection of Aliases Disambiguation and 171-177
Extracting Personal Names
O. Ganga and P. Aleemulla Khan
- Comparative Study of Content Based Image Retrieval by Multi Features 179-188
Arpita Mathur & Rajeev Mathur
- Query based Video Retrieval using Walsh with Seven Transforms 189-198
to form Hybrid Wavelet Transform
Rajeev Mathur & Simora Banker Ghosalakar
