

Indian Journal of Electrical Engineering and Computer Engineering

Volume 7, Number 2 (2017)

Contents

- A Regression Model to Study the Effectiveness of Specific Online Channels to Reach Student Aspirants** 1-9
Ramakrishnan Raman and Dhanya Pramod
- Performance and Analysis of Reconfigurable Video Game Design using FPGA** 11-22
*N. Kalyan^{*1}, B. Murali Krishna^{#2}, Ch. Sravana Vaidehi^{#3}, G.Rakesh Chowdary^{#4}*
- Energy Level Comparison and Congestion Avoidance by Routing Protocols in Mobile Ad Hoc Networks** 23-33
A.Ragavi, G.Rajkumar, C.Eswari and S.Karthik
- Design of ACS Algorithm based Load Frequency Controller for Deregulated Power Systems with Redox Flow Batteries and Generation Rate Constraints** 35-50
S. Ramesh Kumar¹ and S. Ganapathy²
- PSO I-PD Controller for Barrel Heating System with Servo and Regulation Control** 51-62
**S. J. Suji Prasad¹ and R. Meenakumari²*
- Design of Acoustic Modem for an Autonomous Underwater Vehicles** 63-75
R.Sathishkumar¹ and R.Rajavel²
- Automated ANN Based Classifiers For Normal/Fibroadenoma/ Cancer Detection From Breast Thermographs** 77-83
¹N.Selvarasu and ²N.M.Nandhitha
