

# International Journal of CIVIL ENGINEERING

Volume 9

Number 2

July-December 2017

## CONTENTS

- Effect of Replacement of Cement by Metakalion on the Properties of High Performance Concrete Subjected to Hydrochloric Acid Attack  
*Beulah M. and Prahallada M. C.* 81-89
- Global Water and Land use Management: An Overview on Sustainability Aspect  
*Balamurugan M. and Suresh Kumar T.* 91-100
- Using Genetic Programming to Compute Thermal Sensation and Comfort in a Building  
*Chirag Deb and N. Natarajan* 101-111
- Influence of Frequency Content of Clean Sand at the Onset of Liquefaction Using Shake Table Test  
*S. R. Pathak and S. R. Thorat* 113-127
- Sorption Model and Kinetic Assessment of Ultramarine Blue Removal Using Modified Cassava Peels Biomass  
*Hilary I. Owamah, Osadolor C. Izinyon and Augustine K. Asiagwu* 129-143
- Model of Behavior at Pulling of the Reinforced Concrete of Waved Fibers  
*Bouzeroura. Mansour and Bouafia. Youcef* 145-157
- State of Affairs of Build-Operate-Transfer Project  
*Rini Nandi, and Sanjay Tiwari* 159-168
- Laminated Composite Hypar Shell Roofs with Stiffeners: Free Vibration Behavior under Different Boundary Conditions  
*Sarmila Sahoo* 169-179
