CONTENTS

Uses of Reliability Models of Bayesian Network Model of Classification in Single-Classifier Verification with Biometric Authentication □ <i>Rabinarayan Satpathy and R. K. Chhotray</i>	79-88
Overview Signal Representation of Speech in Human Language Technology □ <i>Rebecca Bhattacharya and R N Satpathy</i>	89-95
Topological Modeling of Illuminated Surfaces for Image Processing □ <i>Rabinarayan Satpathy, R. K. Chhotray and Sabyasachi Pattnayak</i>	97-106
Sensitivity Analysis of the Classical Monte-Carlo Simulation by Using Fuzzy Transformation Method for Environmental Risk Assessment □ <i>Dwaipayan Patnayak and R N Satpathy</i>	107-117
Overview of Temporal Data Mining Time Series Knowledge Representation □ <i>Rabinarayan Satpathy, R. K. Chhotray</i>	119-125
Overview of Speaker Recognition in Human Language Technology □ <i>Ranjit K. Sahu. and R N Satpathy</i>	127-133
Signature Verification with Bayesian Networks Model of Classification in Single-Classifier Verification with Biometric Authentication □ <i>Rabinarayan Satpathy and R. K. Chhotray</i>	135-150
Enhancing Best Quality Cluster of Data Using Improved K-Mean Algorithm in Data Mining □ <i>K. Nagamani and N. Geethanjali</i>	151-158
