

International Journal of **ELECTRICAL ENGINEERING AND EMBEDDED SYSTEMS**

Volume 9 • Number 2 • July-December 2017

Contents

1. Optimum Capacity of Large-scale Grid-connected Photovoltaic Systems in..... 65-72
Peninsular Malaysia
Sabo M.L., Norman M., Hashim H., Mohd Amran M.R., Azmi Z.
2. Routing Promotion by Intermediate Relays (RPIR) for Successful Mobile Ad-hoc 73-81
Networks Communication
N. Noor Alleema and D. Siva Kumar
3. Efficient Secure Management Technique (ESMT) in Mobile Wireless Sensor Networks 83-91
R. Dharani and M. V. Srinath
4. Routing through Forward Intersection-area (RFIA) of Mobile Wireless Sensor Networks 93-100
T. H. Feiroz Khan and D. Siva Kumar
5. Reliable and Efficient Self Reconfiguration WSN design (RESR) to Mitigate Link Failures 101-112
M.A. Manivasagam and T.V Ananthan
6. Combinatorial Auction Service Selection in Service Based Systems Using Trust 113-122
Based Quality Awareness
Suvarna S. Pawar and Prasanth Yalla
7. Investigation of Enhanced DC-DC Converter for Renewable Energy Applications 123-132
Vinoth Kumar P., Suresh A. and Rashmi M.R.
8. Different Magnetic Orientation for Torque Angle Control in Scan Mirror Systems 133-139
for Satellite Applications
*Aravind C.V., Maitha Is'haq Yaquob Al-Sawafi
and Arthanari Jagadeeswaran*
