

# International Journal of ELECTRONICS AND COMPUTERS

Volume 9, Number 2, December 2017

## Contents

- |   |   |         |
|---|---|---------|
| Research on Traffic Data-Collecting System Based on MC9S12D64 Microcontroller                   | <i>Jian-Wei LIU, Huai-Kun XIANG,<br/>Zhi-Gang ZHU, Quan CAO &amp; Tian YU</i> | 75-80   |
| Block Truncation Coding Based Histograms for Colour Image Retrieval                             | <i>Zhe-Ming Lu, Chun-He Liu, &amp;<br/>Hans Burkhardt</i>                     | 81-83   |
| Shape Constancy Computation Based on Visual Perceptual Theory                                   | <i>Bing LI, Xi LI, De XU &amp;<br/>Song-He FENG</i>                           | 85-88   |
| Super-Resolution Reconstruction of Compressed Video based on Various Noise Models               | <i>Zhong-Qiang XU &amp;<br/>Xiu-Chang ZHU</i>                                 | 89-95   |
| Parameters Optimization for Control System Model based on Genetic Algorithm                     | <i>Xiao-Hong ZHOU</i>   | 97-102  |
| Efficient Systolic Arrays for Power-Sum, Inversion, and Division in $GF(2^m)$                   | <i>Che-Wun CHIOU,<br/>Chiou-Yng LEE, Jim-Min LIN</i>                          | 103-115 |
| Multimodal Biometric Identification System with One Training Sample Based on Face and Palmprint | <i>Jian-Wei TANG, Xiao-Yuan JING &amp;<br/>David ZHANG</i>                    | 117-122 |
| A Hybrid Approach for Mobile Agent Security using Reversible Watermarking                       | <i>ABID KHAN, Xia-Mu NIU &amp;<br/>Yong ZHANG</i>                             | 123-128 |
| On the Explicit Analytical Solution of a Slider bearing with Non-Newtonian Fluid                | <i>A. Shah, S. Islam, A. M. Siddiqui</i>                                      | 129-137 |
| An FPGA Prototyping of Gabor-wavelets Transform for Motion Detection                            | <i>Bing XIONG, Ce ZHU,<br/>Charayaphan CHAROANSAK &amp; Wei YU</i>            | 139-144 |
