

# INTERNATIONAL JOURNAL OF REAL-TIME SYSTEMS

VOLUME 7

NUMBER 2

2016

## Contents

- Design and Implementation of a Low Power Carry Propagate Adder Using Gdi Cell ..... 63-69  
*Junaki Rani M., Anandhi S. and Manivannan K.*
- Weather Reporting Bot With R-pi and Twitter Interface ..... 71-78  
*F. Jerald, M. Anand and S. Ravi*
- Embedded System Based Quantum Encryption and Decryption Model Using Polarization ..... 79-87  
*B. Raja, M. Anand and S. Ravi*
- WIFI Enabled IoT for real time control with android app ..... 89-97  
*J. Ann Roseela1, S. Ravi and M. Anand*
- Cloud Incorporated Smart Helmet Integrated with Two-wheeler Communication Setup ..... 99-109  
*A. Srikrishnan, K. Senthil Kumar and S. Ravi*
- Augmented Reality Assisted Brain Tumor Identification Using Hamming Distance ..... 111-120  
*E.T. Merlin Sathia Raj and M. Kumaresan*
- Maximizing LTE Performance through Precoding with Low Complexity for MIMO Optimization ..... 121-130  
*N. Duraichi and M. Suganthi*
- Comparison of PMSG and DFIG in Wind Turbine and Implementation of SVPWM Schemes of Inverter .. 131-138  
*V. Meenakshi and S. Paramasivam*
- Epileptic seizure detection using EEG signals by means of stationary wavelet transforms ..... 139-144  
*P. Grace Kanmani Prince, R. Rani Hemamalini, Suresh Kumar*
- Real Time Implementation of Wind Electric Generator with Photo Voltaic Panels ..... 145-152  
*G.D. Anbarasi Jebaselvi, Kimi Kanchan and Pooja Singh*
- A Novel Combined DSRC-WiMAX Technology for different Vehicular Communication Scenario's ..... 153-158  
*D. Kaudar*
