

International Journal of Manufacturing Science and Technology

VOLUME 9

NUMBER 2

DECEMBER 2015

CONTENTS

- Experimental Investigation on Surface Quality in Hard Turning 93-100
T. Alwarsamy, N. Sangeetha and S.Vetrivel
- Process and Parameter Optimization in a Foundry Unit for the Improvement in Production Yield 101-114
P. Venkataramaiah
- A Numerical Analysis of Residual Stresses in V-Butt Weld Joint of Two Similar Aluminum Alloy Plates 115-125
Gurinder Singh Brar and Gurdeep Singh
- Design of Row Based Flexible Manufacturing Systems 127-133
C. Srinivas, K.Remji, B.Satyanarayana and R. Naveen
- A Particularity of the MULTI-POINT Mass Model of Turning and Boring Machine-tools 135-149
Gérard MBOBDA, Roger THUIDJAN, Julius NASHIPU
- On an Approach in Fighting Against the Vibrations Transmitted from the Ground to Precision Machine-tools 151-166
Gérard MBOBDA, Roger TCHUIDJAN, Julius NASHIPU
- Development of A New Bio-degradable Friction Material for Brake Pads from Palm Kernel Shell 167-177
*Dareddy Ramana Reddy, Swadesh Kumar Singh
Balu Naik Banoth*
