

International Journal of
**ELECTRONICS, COMPUTING AND
ENGINEERING EDUCATION**

Volume 4 • Number 1 • January-June 2014

CONTENTS

Load Following Capability of Dg under Consecutive Voltage Sags in Distribution Systems1-4 <i>Satish K Injeti and Prema Kumar Navuri</i>	1-4
Pedal Power Generation.....5-7 <i>Byahatti Kshitiz and Nagaratna S.</i>	5-7
An Efficient Wavelet Based Power System Stabilizer and Control Through Probabilistic Neural Networks9-11 <i>B. Gavaskar Reddy; M. Amarendra, B. Maheswari Reddy and K. Raja Gopal</i>	9-11
Review of Important Diagnostics Parameters for Power Transformer13-18 <i>Jashandeep Singh, Yog Raj Sood and Piush Verma</i>	13-18
An Empirical Approach of Solar Cellmodelling19-21 <i>G. Krishna Sarma and M. Srinivas</i>	19-21
A Novel Three-Phase Hybrid Unidirectional Rectifier23-29 <i>J. Buskaran, P. Selvaraj and P. Nammalvar</i>	23-29
Modelling and Simulation of Induction Motor Fault Detection Using Symmetrical Component Analysis31-37 <i>K. Vinoth Kumar, S. Suresh Kumar, A. Immanuel Selvakumar and R. Saravanakumar</i>	31-37
Query based Video Retrieval using Vector Quantization By KFCG KPE and KEVR39-44 <i>Rajeev Mathur and Sinora Banker Ghosalkar</i>	39-44
Comparison of Basis Expansion Model and Second-order Markov Model for Wireless Channel Fading45-46 <i>Amit Kumar Kohli</i>	45-46
