

International Journal of GEOTECHNICS AND ENVIRONMENT

Volume 7

Number 2

July-December 2015

Contents

- Application of Support Vector Machine in P-Wave Attenuation in 89-101
Sandstones
Pijush Samui
- Wave Transformation Due to the Placement of Natural Geotextiles in 103-118
Rubble Mound Structures
Prabisha P. R. and Jyothis Thomas
- Influence of Hydraulic Retention Time on Distillery Effluent 119-132
Treatment Using Up-flow Anaerobic Sludge Blanket (UASB) Reactor
Jugdev Singh, Chadetrik Rout and Jitender Pal
- Numerical Analysis of Earth-Rockfill Dam during Construction and 133-150
First Stage of Impounding—A Case Study
S. M. Ali Zomorodian and Hossein Chochi
- A New Approach for Compaction Characteristics of Fly Ash 151-159
Stabilised Soils Based on maximum Volume of Solids
Mallikarjuna Rao K. and Rama Subbarao G. V.
- Decolourisation and Chemical Oxygen Demand Reduction Efficiency of 161-175
Ferrous Sulphate for the Treatment of Synthetic Textile Wastewater -
A Comprehensive Study
*Akshaya Kumar Verma, Puspendu Bhunia and
Rajesh Roshan Dash*
