

International Journal of **MANUFACTURING TECHNOLOGY AND INDUSTRIAL ENGINEERING**

VOLUME 4

NUMBER 1

JANUARY-JUNE 2013

CONTENTS

1. Experimental Study on Laser Cutting of Superalloy Sheet 1-5
A. K. Dubey, Arun Kumar Pandey & Vinod Yadava
2. Prediction of Surface Finish and Material Removal Rate in Wire Electrical Discharge Machining (WEDM) Using Fuzzy Approach 7-14
Biranchi Narayan Panda, Anshuman Jena & S. S. Mahapatra
3. Parametric Studies of Low Burnishing on the Surface Enhancement of AA 7075-T6 15-21
C. Y. Seenikeri, S. B. Mahagaonkar & P. K. Brahmankar
4. Effect of Pulse Off Time on Average Power Consumption during Wire Electrical Discharge Turning (WEDT) Process 23-28
Giridharan, A. & G. L. Samuel
5. Product Assembly Sequence Design Using Reference Ranking Organization Method for Enrichment Evaluations 29-34
S. R. Gangurde & M. M. Akarte
6. Parametric Optimization of Pulse-electrochemical Honing (PECH) Process by Response Surface Methodology 35-41
J. P. Misra, H. Singh, P. K. Jain & N. K. Jain
7. Prediction and Control of Surface Roughness in Turning Process 43-48
K. V. Murali Krishnam Raju, G. Ranga Janardhana & P. Nanda Kumar
8. Some Studies on the Effect of Electric Discharge Machining on the Performance of Powder Metallurgy Processed Electrode Using the Taguchi Method 49-54
Naveen Beri, S. Maheshwari, C. Sharma & Anil Kumar
9. Ageing Effect on Physical Properties of $(\text{Al384,1})_{1-x}[(\text{MGO})_x]$ Particulate Composites Particle Size at $0.220 \mu\text{m}$ 55-60
Nrijiit, A. K. Tyagi, Jagdev Singh & Nirmai Singh
10. Parameter Optimization of Ultrasonic Machining Process Using Hybrid ABC-SA Algorithm 61-66
P. J. Pawar & R. V. Rao
11. Experimental Analysis of Surface Roughness in FDM Process 67-72
Dharmadhikari P. M. & Kulkarni P. C.
12. Effect of Die Land Length and Lubrication on the Mechanical Properties of the Extruded Products in a Multi-hole Extrusion Process: An Experimental Study 73-77
R. Das, U. S. Dixit & S. Deb
