

ACI STRUCTURAL JOURNAL

MARCH 2018, V. 115, No. 2

A JOURNAL OF THE AMERICAN CONCRETE INSTITUTE
AN INTERNATIONAL TECHNICAL SOCIETY

Editorial Board

Robert J. Frosch, Editor-in-Chief
Purdue University
Catherine French
University of Minnesota
Michael Kreger
University of Alabama
David Sanders
University of Nevada, Reno
James K. Wight
University of Michigan

Board of Direction

President

Khaled Awad

Vice Presidents

David A. Lange
Randall W. Poston

Directors

JoAnn P. Browning
Cesar A. Constantino
Frances T. Griffith
H. R. Trey Hamilton
R. Doug Hooton
Joe Hug
Kimberly Kayler
William M. Klorman
Neven Krstulovic-Opara
Tracy D. Marcotte
Antonio Nanni
Roberto Stark

Past President Board Members

Michael J. Schneider
Sharon L. Wood
William E. Rushing Jr.

Executive Vice President

Ron Burg

Staff

Publisher
John C. Glumb

Engineering

Managing Director
Michael L. Tholen

Managing Editor
Jerzy Z. Zemajtis

Staff Engineers

Katie A. Amelio

Editors

Carl R. Bischof
Kaitlyn J. Dobbertein
Tiesha Elam
Kelli R. Slayden

Editorial Assistant

Angela R. Matthews

- 299 **Seismic Performance of a Building Subjected to Intermediate Seismic Shaking**, by Carlos A. Arteta and Jack P. Moehle
- 311 **Behavior and Design of Slender Rectangular Concrete Columns Longitudinally Reinforced with Fiber-Reinforced Polymer Bars**, by Weichen Xue, Fei Peng, and Zhiqing Fang
- 323 **Truss Model for Shear Strength of Structural Concrete Walls**, by Jimmy Chandra, Khatthanam Chanthabouala, and Susanto Teng
- 337 **Experimental Behavior of Glass Fiber-Reinforced Polymer-Reinforced Concrete Columns under Lateral Cyclic Load**, by Mohammed G. Elshamandy, Ahmed Sabry Farghaly, and Brahim Benmokrane
- 351 **Effect of Types of Concrete on Flexural Behavior of Beams Reinforced with High-Strength Steel Bars**, by Saif Aldabagh, Farid Abed, and Sherif Yehia
- 365 **Finite Element Simulation and Parametric Study of Anchored Fiber-Reinforced Polymer Sheets**, by Alaa T. Al-Sammari and Sergio F. Breña
- 379 **Investigation on Punching Behavior of Pile Cap under Column Reinforced by Section Steel Truss**, by Honglei Guo
- 391 **Idealization of Bond Stress-Slip Relationship at Elevated Temperatures Based on Pullout Tests**, by Mohammad Mahdi Raouffard and Minehiro Nishiyama
- 401 **Evaluation of Shear Reinforcement Design Limits in High-Strength Concrete Beams**, by Gerardo Aguilar, Sandra Villamizar, and Julio A. Ramirez
- 415 **Anchorage of Bundled Bars Grouted in Ducts**, by Francisco A. Galvis and Juan F. Correal
- 425 **Experimental and Analytical Studies on H-Shaped Reinforced Concrete Squat Walls**, by Jiaying Ma and Bing Li
- 439 **Long-Term Behavior of Continuous Composite Concrete Slabs with Steel Decking**, by Alireza Gholamhoseini, R. Ian Gilbert, and Mark Bradford
- 451 **Strengthening of a Bridge Using Post-Tensioned Near-Surface-Mounted Carbon Fiber-Reinforced Polymer in Multi-Hazard Environment**, by Yail J. Kim, Jae-Yoon Kang, Jong-Sup Park, and Woo-Tai Jung

Contents cont. on next page

Discussion is welcomed for all materials published in this issue and will appear ten months from this journal's date if the discussion is received within four months of the paper's print publication. Discussion of material received after specified dates will be considered individually for publication or private response. ACI Standards published in ACI Journals for public comment have discussion due dates printed with the Standard.

CONTENTS

- 463 **Mechanical Model for Drift-Induced Punching of Slab-Column Connections without Transverse Reinforcement**, by Ioannis-Sokratis Drakatos, Aurelio Muttoni, and Katrin Beyer
- 475 **Risk-Informed Condition Assessment of a Bridge with Alkali Aggregate Reaction**, by Mohammad Amin Hariri-Ardebili, Victor E. Saouma, and Christine Merz
- 489 **Eccentric Behavior of Full-Scale Reinforced Concrete Columns with Glass Fiber-Reinforced Polymer Bars and Ties**, by Michaël Guérin, Hamdy M. Mohamed, Brahim Benmokrane, Antonio Nanni, and Carol K. Shield
- 501 **Model for Assessment of Cracked Reinforced Concrete Membrane Elements Subjected to Shear and Axial Loads**, by Paolo M. Calvi, Evan C. Bentz, and Michael P. Collins
- 511 **Flexural Testing of Circular Concrete-Filled Tubes without Axial Forces**, by Andrew Nghiem, Thomas H.-K. Kang, Minsun Lee, Chris Ramseyer, and Cheol-Ho Lee
- 525 **Prediction Model for Development Length of Indented Prestressing Wires**, by Amir F. Momeni, Robert J. Peterman, and B. Terry Beck
- 535 **Instantaneous Crack Width Calculation for Steel Fiber-Reinforced Concrete Flexural Members**, by Ali Amin and R. Ian Gilbert
- 545 **Monitoring Damage in Concrete Columns Using Ultrasonic Tomography**, by Hajin Choi, Guillermo Palacios, John S. Popovics, and Shih-Ho Chao
- 559 **Discussion**
Behavior of Reinforced Concrete Slabs under Low-Velocity Impact. Paper by Yao Xiao, Bing Li, and Kazunori Fujikake
- 563 **2017 Reviewers List**

UPCOMING ACI CONVENTIONS

The following is a list of scheduled ACI conventions:

2018—March 25-29, Grand America & Little America, Salt Lake City, UT

2018—October 14-18, Rio All-Suites Hotel & Casino, Las Vegas, NV

2019—March 24-28, Quebec City Convention Centre and Hilton Quebec, Quebec, Canada

For additional information, contact:

Event Services, ACI

38800 Country Club Drive, Farmington Hills, MI 48331

Telephone: +1.248.848.3795

e-mail: conventions@concrete.org

ON COVER: 115-S38, p. 476, Fig. 1—General view of viaduct.

Permission is granted by the American Concrete Institute for libraries and other users registered with the Copyright Clearance Center (CCC) to photocopy any article contained herein for a fee of \$3.00 per copy of the article. Payments should be sent directly to the Copyright Clearance Center, 21 Congress Street, Salem, MA 01970. ISSN 0889-3241/98 \$3.00. Copying done for other than personal or internal reference use without the express written permission of the American Concrete Institute is prohibited. Requests for special permission or bulk copying should be addressed to the Managing Editor, *ACI Structural Journal*, American Concrete Institute.

The Institute is not responsible for statements or opinions expressed in its publications. Institute publications are not able to, nor intend to, supplant individual training, responsibility, or judgment of the user, or the supplier, of the information presented.

Papers appearing in the *ACI Structural Journal* are reviewed according to the Institute's Publication Policy by individuals expert in the subject area of the papers.

Contributions to *ACI Structural Journal*

The *ACI Structural Journal* is an open forum on concrete technology and papers related to this field are always welcome. All material submitted for possible publication must meet the requirements of the "American Concrete Institute Publication Policy" and "Author Guidelines and Submission Procedures." Prospective authors should request a copy of the Policy and Guidelines from ACI or visit ACI's website at www.concrete.org prior to submitting contributions.

Papers reporting research must include a statement indicating the significance of the research.

The Institute reserves the right to return, without review, contributions not meeting the requirements of the Publication Policy.

All materials conforming to the Policy requirements will be reviewed for editorial quality and technical content, and every effort will be made to put all acceptable papers into the information channel. However, potentially good papers may be returned to authors when it is not possible to publish them in a reasonable time.

Discussion

All technical material appearing in the *ACI Structural Journal* may be discussed. If the deadline indicated on the contents page is observed, discussion can appear in the designated issue. Discussion should be complete and ready for publication, including finished, reproducible illustrations. Discussion must be confined to the scope of the paper and meet the ACI Publication Policy.

Follow the style of the current issue. Be brief—1800 words of double spaced, typewritten copy, including illustrations and tables, is maximum. Count illustrations and tables as 300 words each and submit them on individual sheets. As an approximation, 1 page of text is about 300 words. Submit one original typescript on 8-1/2 x 11 plain white paper, use 1 in. margins, and include two good quality copies of the entire discussion. References should be complete. Do not repeat references cited in original paper; cite them by original number. Closures responding to a single discussion should not exceed 1800-word equivalents in length, and to multiple discussions, approximately one half of the combined lengths of all discussions. Closures are published together with the discussions.

Discuss the paper, not some new or outside work on the same subject. Use references wherever possible instead of repeating available information.

Discussion offered for publication should offer some benefit to the general reader. Discussion which does not meet this requirement will be returned or referred to the author for private reply.
