

Advances in Wireless and Mobile Communications (AWMC)

Volume 11, Number 1 (2018)

Contents

- Driver's Head Tracking With Pose Estimation Using Computer Vision Technology Under 2D Environment.** 1-9
P.Meshram And N.Auti
- Design And Development Of Multilevel Authentication Of Cloud Services Through De-Duplication Mechanism** 11-19
K. Saritha And Dr. S.Subasree
- HB-K Means: An Algorithm For High Dimensional Data Clustering Using Bisecting K-Means** 21-36
Aparna K And Mydhili K Nair
- Integrative Information River Model For Financial Market's Big Data Analytics** 37-45
Krishna Kumar Singh And Dr. Priti Dimri
- An Efficient Method To Encrypt Information In Large Database** 47-58
V.S.Thiyagarajan And Dr. K.Venkatachalapathy
- A Framework To Secure Outsourced Data In Public Cloud Storage Environment** 59-71
Dr. Ramalingamsugumar And Sharmilabanu Sheik Imam
- A Web Robot For Extracting Personal Name Aliases** 73-90
Thangaraj M And Sivagaminathan P G
