

# Indian Journal of Electrical Engineering and Modern Technology

---

Volume 8, Number 1 (2018)

## *Contents*

- |  |       |
|--|-------|
| <b>Topological Object-Association Model for Simulating<br/>Electrical Networks</b><br><i>Ilya Abramovich Golovinskii</i>   | 1-25  |
| <b>Experimental Study on Performance Analysis of Viterbi<br/>Algorithm based on Hidden Markov Model considering<br/>Soft Decision Decoding</b><br><i>Favian Dewanta<sup>1</sup> and Yeon-Mo Yang<sup>2</sup></i> | 27-39 |
| <b>Asset Management and Maintenance in Transmission<br/>and Distribution Networks</b><br><i>S. Surender Reddy</i>  | 41-49 |
| <b>A Mathematical Treadmill Exercise Model Using<br/>Fuzzy Logic Engineering</b><br><i>Aaron Don M. Africa</i>   | 51-62 |
| <b>Security Constrained Optimal Power Flow with FACTS Controllers<br/>Using Hybrid Differential Evolution and Harmony Search Algorithm</b><br><i>S. Surender Reddy</i>   | 63-75 |
| <b>Stochastic Classifier Integration Model</b><br><i>M. Jang and D.-C. Park</i>  | 77-90 |
