CONTENTS

- Steel fibers with non-circular cross-section used as reinforcement in self-compacting concrete 251
Małgorzata Pająk & Tomasz Ponikiewski
- Texture and morphology based conductivity analysis of fuel cell - bipolar plate using scanning electron microscopic images 261
M C Pravin, S Karthikeyan, B Sathyabama & D Synthiya Vinothini
- Effect of rock dust, cenosphere and E-waste addition on mechanical, wear and machinability behaviour of Al 6061 hybrid composites 270
K Soorya Prakash, P M Gopal & V Kavimani
- Tensile and compressive properties of epoxy syntactic foams reinforced by short glass fiber 283
Wei Yu, Hailong Xue & Meng Qian
- Interfacial microstructure and mechanical properties of Fe-36Ni invar alloy GTAW joint 290
Fei Li, Wei Guo, Bo Lin, BoJin Qi, Lincong Chen, Wenjung Yu & Ying Zhu
- Multi-objective optimization of Nd: YAG laser cutting parameters based on BBD-SA hybrid approach 295
A Tamilarasan & D Rajamani
- Effect of seven-layered martensite in Ni-Mn-Ga magnetic shape memory alloys 301
F A Sajitha Banu, S Vinodh Kumar, S Seenithurai & Manickam Mahendran
- Improvement of adhesion, corrosion and wear resistance of Ni electrodeposited coating by applying Cu intermediate layer after zincate process 306
M Adabi & A Amadeh
- Effects of current density on the microstructure and corrosion resistance of MAO coating on extruded AZ80 alloy 313
Degang Zhao, Quan Yu, Jiai Ning & Na Liu
