

International Journal of ELECTRONICS AND COMPUTERS

Volume 10 • Number 1 • January-June 2018

Contents

1. Grid Connected Wind Power Generation Controlled by FLC
Venugopal Reddy Bodha, A. Srujana and O. Chandra Sekhar 1-7
2. Advanced Battery Management System for Hybrid Electric Vehicle
Swathi Karike and D. Sudha Rani 9-15
3. Fast and Real-Time Algorithm to Detect Impending Voltage Instability
K.K. Deepika, G. Kesava Rao, J. Vijaya Kumar and R.S. Ravi Sankar 17-22
4. Ensuring Correctness of Data When Faults are Caused During Communication between the Wireless Sensor Networks
K.V. Sowmya, K. Sreenivasa Ravi and JKR Sastry 23-29
5. A Review on Recent Developments in Wireless Power Transfer
Sk. Moulali and K. Subbarao 31-36
6. Reliability Analysis of Radial Distribution Networks with Cost Considerations
K. Guru Prasad, J. Sreenivasulu, V. Sankar and P. Srinivasa Varma 37-47
7. Power Quality Enhancement in Micro Grids by Employing MPC-EKF
N. Narender Reddy, A. Srujana and O. Chandrasheker 49-55
8. Determination of Voltage Stability Index using Eigen Ratio
A. Lakshmi Priya, S.V.N.L Lalitha and M. Ramamoorthy 67-64
9. Neuro-Wavelet Based Transmission Line Protection Scheme in Presence of Microgrid
S. Chandra Shekar, G. Ravi Kumar and Synl Lalitha 65-72
