

CONTENTS

1. Comparative Analysis of Different Modulation Techniques for Multi Level Diode Clamped Inverter with Boost Converter1-8
VNSR. Murthy, A. Pandian and M. Venu Gopalrao
2. Enhance the Power Quality and Management of Power in Microgrid Applications9-20
Bagam Srinivasarao, SVNL Lalitha and Yerra Sreenivasarao
3. Epoch Smoothing in GPS Receivers using Kalman Filter21-26
R. Revathi, S. Lakshminarayana, K.S. Ramesh and S. Koteswara Rao
4. Precise Positioning of GPS Receivers using Least Squares Method.....27-31
R. Revathi, S. Lakshminarayana, K.S. Ramesh and S. Koteswara Rao
5. Voltage Disturbances Identification and Mitigation using SRF Controlled DVR in Distribution System33-42
S. Vijaya Laxmi and P.V. Ramana Rao
6. Optimal Capacitor Placement in Distribution System with Random Variations in Load43-49
Ajay Babu B, M. Ramalinga Raju and K.V.S.R. Murthy
7. Speed Regulation of Indirect Vector Controlled-Induction Motor using Fuzzy Logic Controller51-58
Khamruddin Syed and K. Harinadha Reddy
8. Speed Control of Induction Motor with Sensorless Speed Measurement using Only Stator Variables59-64
P.N.H. Phanindra Kumar, O. Chandra Sekhar and M. Ramamoorthy
9. Application of Sensitivity Approach for Congestion Management By UPFC.....65-70
Naga Raja Kumari. CH and K. Chandra Sekhar
