

International Journal of NEURAL NETWORKS AND APPLICATIONS

Volume 11 • Number 1 • 2018

Contents

1. Analysis of Supply Chain management in Inventory Optimization for warehouse with 1-12
logistics using Genetic Algorithm
Ajay Singh Yadav
2. Design of Low Power Reversible 8-Bit Adder/Subtractor Using Single Electron Transistor 13-18
for Nanoprocessors
Amirthalakshmi T. M. and Selvakumar Raja S.
3. Infected Fruit Part Detection Using Different Segmentation Techniques 19-23
Anuradha and Bhupinder Kaur
4. Coverage Improvement and Trust Management Over Heal Technique in Wireless 25-29
Sensor Network
R. Arunodaya, V. R. Vimal and R. Aswini Priyanka
5. A Technique for Encrypted Image Watermarking Using Wavelet Transformation with 31-40
Classification Technique
Ashminder Kaur and Lofty Sahi
6. Distributed Approach Based Image Steganography Using Double Thresholding for 41-48
High Speed Hardware Applications
Avdash Bhatt and Rinkesh Mittal
7. Oppositional PSO based Optimized RBF Neural Networks for Estimating Daily Rainfall in 49-58
Kanyakumari District
Balamurali A, Siva Balan R V, Anu Meera B and Karthika B
8. A Study on Investigating Wi-Fi based Fingerprint indoor localization of Trivial Devices 59-63
Sangiseti Bhagya Rekha
9. Detection of Mimicry Attacks in Automated Way 65-71
S. Bharath Reddy, D. Malathi and A. Viswanadham
10. Essence of the waste heat recovery in the process industries 73-82
Karanam Bharath Kumar and B. Nageswara Rao
11. Performance of AFBC and CFBC boilers in thermal power plants 83-89
M. Blessy Raisa and B. Nageswara Rao
