

International Journal of Wireless Networks and Communications

Volume 10, Number 1 (2018)

Contents

- Mobile Agent Based Key Distribution Approach for Clustered Wireless Sensor Networks** 1-14
Ramu Kuchipudi¹, Dr. Ahmed Abdul Moiz Qyser², Dr. V.V.S.S.S. Balaram³
- Implementation of the Mobile Agent System providing Agent Mobility & Agent Cloning using Resource Allocation Problem** 15-26
Professor Dr. Sudan Jha
- Expressing & Restraining Personalised Location Privacy in Mobile Applications** 27-43
Balaso Jagdale¹ and Jagdish Bakal²
- Session Initiated Quadratic Lyapunov Multi Access Router for Seamless Mobility Communication in Pans** 45-66
Sridhar D. and Dr. C. Chandrasekar
- Design of Matched H-Plane Tee** 67-75
Debendra Kumar Panda
- Mobile Device Interface for Mining OpenStreetMap to Analyse User Contribution** 77-85
Sukhjit Singh Sehra, Pawan Verma and Navneet Kaur, Jaiteg Singh and Hardeep Singh Rai
- Biometric Mutual Authentication Technique with Four Entities in 4-G Mobile Communications** 87-102
Pijush Kanti Bhattacharjee, Sudipta Roy and Rajat Kumar Pal
