Robert J. Frosch, Editor-in-Chief  
*Purdue University*  
 Catherine French  
*University of Minnesota*  
 Michael Kreger  
*University of Alabama*  
 David Sanders  
*University of Nevada, Reno*  
 James K. Wight  
*University of Michigan*

## Board of Direction

**President**  
 David A. Lange

**Vice Presidents**  
 Jeffrey W. Coleman  
 Randall W. Poston

## Directors

Heather J. Brown  
 Mark A. Cheek  
 Frances T. Griffith  
 H. R. Trey Hamilton  
 R. Doug Hooton  
 Joe Hug  
 William M. Klorman  
 Neven Krstulovic-Opara  
 Tracy D. Marcotte  
 Antonio Nanni  
 Michael J. Paul  
 Michelle L. Wilson

## Past President Board Members

Khaled Awad  
 Michael J. Schneider  
 Sharon L. Wood

**Executive Vice President**  
 Ron Burg

## Staff

**Publisher**  
 John C. Glumb

**Managing Director, Engineering and Professional Development**  
 Michael L. Tholen

## Engineers

Katie A. Amelio  
 Robert M. Howell  
 Khaled Nahlawi  
 Marc M. Rached  
 Matthew R. Senecal  
 Gregory M. Zeisler  
 Jerzy Z. Zemajtis

**Managing Editor**  
 Barry M. Bergin

**Associate Editor**  
 Kelly Dudley

## Editors

Carl R. Bischof  
 Kaitlyn J. Dobbertein  
 Tiesha Elam  
 Angela R. Matthews  
 Kelli R. Slayden

# ACI STRUCTURAL JOURNAL

SEPTEMBER 2018, V. 115, No. 5

A JOURNAL OF THE AMERICAN CONCRETE INSTITUTE  
 AN INTERNATIONAL TECHNICAL SOCIETY

- 1219 **Extent of Plasticity in Reinforced Concrete Columns**, by Gabriele Guerrini and José I. Restrepo
- 1231 **Seismic Behavior of Flanged Reinforced Concrete Shear Walls under Cyclic Loading**, by Bin Wang, Qing-Xuan Shi, and Wen-Zhe Cai
- 1243 **Slenderness Lower Limit for Sway-Inhibited Reinforced High-Strength Concrete Beam-Columns**, by Monther B. Dwaikat and Mahmud M. S. Dwaikat
- 1253 **Seismic Performance of Flexural Reinforced Concrete Columns with Corroded Reinforcement**, by Ngoc Son Vu and Bing Li
- 1267 **Torsion Experiment and Cracking-Torque Formulas of Prestressed Concrete Beams**, by Chyuan-Hwan Jeng and Min Chao
- 1279 **Collapse Load Estimation of Rectangular Reinforced Concrete Beam-Slab Systems—New Insights**, by Bijily Balakrishnan and Devdas Menon
- 1295 **Punching Shear Tests of Slabs with High-Strength Continuous Hoop Reinforcement**, by Tae-Sung Eom, Su-Min Kang, Tae-Woo Choi, and Hong-Gun Park
- 1307 **Behavior of Concrete Beams Reinforced with Steel Plates**, by Muhammad N. S. Hadi, Mazin M. Sarhan, and Lip H. Teh
- 1317 **Stretch Length Anchor Bolts under Combined Tension and Shear**, by Joel E. Parks, Chris P. Pantelides, Luis Ibarra, and David H. Sanders
- 1329 **Effects of Alkali-Silica Reaction on Concrete Squat Shear Walls**, by Farhad Habibi, Shamim A. Sheikh, Frank Vecchio, and Daman K. Panesar
- 1341 **A Statistical Approach to Refine Design Codes for Interface Shear Transfer in Reinforced Concrete Members**, by Mahmoodreza Soltani, Brandon E. Ross, and Amin Khademi
- 1353 **Flexural Strength and Design Analysis of Circular Reinforced Concrete Members with Glass Fiber-Reinforced Polymer Bars and Spirals**, by Salaheldin Mousa, Hamdy M. Mohamed, and Brahim Benmokrane
- 1365 **Improved Shear Reinforcement for Footings—Maximum Punching Strength**, by Dominik Kueres, Marcus Ricker, and Josef Hegger
- 1379 **Ultimate Stress of Large-Diameter Strands in Simple Unbonded Post-Tensioned Beams**, by Wei Zhou and Yahui Hu

*Contents cont. on next page*

Discussion is welcomed for all materials published in this issue and will appear ten months from this journal's date if the discussion is received within four months of the paper's print publication. Discussion of material received after specified dates will be considered individually for publication or private response. ACI Standards published in ACI Journals for public comment have discussion due dates printed with the Standard.

The ACI Structural Journal (ISSN 0889-3241) is published bimonthly by the American Concrete Institute. Publication office: 38800 Country Club Drive, Farmington Hills, MI 48331. Periodicals postage paid at Farmington, MI, and at additional mailing offices. Subscription rates: \$172 per year (U.S. and possessions), \$181 (elsewhere), payable in advance. POSTMASTER: Send address changes to: ACI Structural Journal, 38800 Country Club Drive, Farmington Hills, MI 48331.

Canadian GST: R 1226213149.

Direct correspondence to 38800 Country Club Drive, Farmington Hills, MI 48331. Telephone: +1.248.848.3700. Facsimile (FAX): +1.248.848.3701. Website: <http://www.concrete.org>.

## CONTENTS

- 1393 **Development of Headed Bars in Slab-Column Joints of Reinforced Concrete Slab Bridges**, by Vasileios Papadopoulos, Juan Murcia-Delso, and P. Benson Shing
- 1407 **Study of Interaction between a PreWEC System and Surrounding Structure**, by Qingzhi Liu, Catherine W. French, and Sri Sritharan
- 1419 **Behavior of Ambient-Cured Geopolymer Concrete Columns under Different Loads**, by Nabeel A. Farhan, M. Neaz Sheikh, and Muhammad N. S. Hadi
- 1431 **Axial Compressive Behavior of Steel Equal Angle Section-Reinforced Square High-Strength Concrete Column**, by Ayoob A. Ibrahim, M. Neaz Sheikh, and Muhammad N. S. Hadi
- 1443 **Evaluating Historical Flexural Members Reinforced with Ransome Bars**, by Umesh Poudyal and Lisa R. Feldman
- 1453 **Shear and Flexural Behavior of Autoclaved Aerated Concrete Confined Masonry Walls**, by J. Varela-Rivera, L. Fernandez-Baqueiro, R. Alcocer-Canche, J. Ricalde-Jimenez, and R. Chim-May
- 1463 **Maximum Shear Capacity of Reinforced Concrete Members**, by Giorgio T. Proestos, Evan C. Bentz, and Michael P. Collins
- 1475 **Controlling Mass Concrete Effects in Large-Diameter Drilled Shafts Using Full-Length Central Void**, by Gray Mullins, Kevin R. Johnson, and Danny Winters
- 1485 **Shear Strength of Reinforced Concrete Vertical Wall Segments under Seismic Loading**, by Rou-Ling Yeh, Chien-Chuang Tseng, and Shyh-Jiann Hwang
- 1495 **Prestress Loss of Post-Tensioned Near-Surface-Mounted Carbon Fiber-Reinforced Polymer for Bridge Strengthening**, by Yail J. Kim, Jae-Yoon Kang, Jong-Sup Park, and Woo-Tai Jung

### UPCOMING ACI CONVENTIONS

The following is a list of scheduled ACI conventions:

2018—October 14-18, Rio All-Suites Hotel & Casino, Las Vegas, NV

2019—March 24-28, Quebec City Convention Centre and Hilton Quebec, Quebec, Canada

2019—October 20-24, Duke Energy Convention Center and Hyatt Regency, Cincinnati, OH

#### For additional information, contact:

Event Services, ACI  
38800 Country Club Drive, Farmington Hills, MI 48331  
Telephone: +1.248.848.3795  
e-mail: [conventions@concrete.org](mailto:conventions@concrete.org)

**ON COVER: 115-S101**, p. 1320, Fig. 4—Stretch lengths for 12.7 mm (0.5 in.) thick steel chair: (a)  $8d_b$ ; (b)  $6d_b$ ; and (c)  $4d_b$ . (Note: 1 mm = 0.39 in.)

Permission is granted by the American Concrete Institute for libraries and other users registered with the Copyright Clearance Center (CCC) to photocopy any article contained herein for a fee of \$3.00 per copy of the article. Payments should be sent directly to the Copyright Clearance Center, 21 Congress Street, Salem, MA 01970. ISSN 0889-3241/98 \$3.00. Copying done for other than personal or internal reference use without the express written permission of the American Concrete Institute is prohibited. Requests for special permission or bulk copying should be addressed to the Managing Editor, *ACI Structural Journal*, American Concrete Institute.

The Institute is not responsible for statements or opinions expressed in its publications. Institute publications are not able to, nor intend to, supplant individual training, responsibility, or judgment of the user, or the supplier, of the information presented.

Papers appearing in the *ACI Structural Journal* are reviewed according to the Institute's Publication Policy by individuals expert in the subject area of the papers.

### Contributions to *ACI Structural Journal*

The *ACI Structural Journal* is an international forum on concrete technology and related to this field are always welcome. All material submitted for possible publication must meet the requirements of the "American Concrete Institute Publication Policy" and "Author Guidelines and Submission Procedures." Prospective authors should request a copy of the Policy and Guidelines from ACI or visit the website at [www.concrete.org](http://www.concrete.org) for submitting contributions.

Papers reporting research must include a statement indicating the significance of the research.

The Institute reserves the right to accept, without review, contributions not meeting the requirements of the Publication Policy.

All materials conforming to the requirements will be reviewed for editorial quality and technical content, and every effort will be made to put all accepted papers into the information channels. However, potentially good papers may be returned to authors when it is not possible to publish them in a reasonable time.

### Discussion

All technical material appearing in the *ACI Structural Journal* may be discussed. If the deadline indicated on the cover page is observed, discussion can appear in the designated issue. Discussion should be complete and ready for publication, including finished, reproducible illustrations. Discussion must be confined to the scope of the paper and meet the ACI Publication Policy.

Follow the style of the current issue. Be brief—1800 words of double-spaced typewritten copy, including illustrations and tables, is maximum. Count illustrations and tables as 300 words each and list them on individual sheets. As an approximation, 1 page of text is about 300 words. Submit one original typescript on 8.5 × 11 plain white paper, use 1 in. margins, and include two good quality copies of the entire discussion. References should be complete. Do not repeat references in original paper; cite them by page number. Closures responding to a discussion should not exceed 1800-word equivalents in length, and to multiple discussions, approximately one half the combined lengths of all discussions. Closures are published together with the discussions.

Discuss the paper, not some other outside work on the same subject. Use references wherever possible instead of repeating available information.

Discussion offered for publication may offer some benefit to the general reader. Discussion which does not meet the requirement will be returned or referred to the author for private reply.
