

INTERNATIONAL JOURNAL OF ADVANCES IN MACHINING AND FORMING OPERATIONS

VOLUME 10

ISSUE 2

JULY-DECEMBER 2018

Contents

- Computational Modeling of Powder Compaction Process Using Finite Element Method 57-62
A. P. Partha, B. M. Raja Prakash and T. Jagadish
- Composite Laminates Subjected to Low Velocity Impact, An Experimental Investigation 63-65
on the Response
B. Anil Kumar and H. K. Shivanand
- Critical Analysis of the Stock-in-process of a Conveyor Belt Manufacturing Unit 67-76
Through Computer Simulation
Sanjeev Kumar, Somnath Chattopadhyaya and Anurag Mishra
- Evaluation of Tensile Properties of Epoxy Based E-Glass-Carbon Woven Fabric Laminates 77-84
S. Shankar, H. K. Shivanand and M. M. Benal
- Experimental Investigation of H-38 (R290+R600a) as an Alternative to R134a 85-88
for Small Capacity Refrigerator
Milind S Patil, Ramchandra. S. Jahagidar, Eknath R Deore and Purshotam Desale
- Emissions from Copper Coated Two Stroke Spark Ignition Engine with Gasohol 89-93
with Catalytic Converter
S. Narasimha Kumar, M.V.S. Murali Krishna, P. V.K. Murthy, V.V.R. Seshagiri Rao and D. N. Reddy
- Strength Comparison of Ti-Alloys Used as Orthopedic Implant Materials by FEA 95-100
H. G. Hanumantharaju and H. K. Shivanand
- Non-invasive Evaluation of Absolute Intracranial Pressure Based on Patient-Specific 101-107
Finite Element Simulation
Yunhua Luo and Zhaoxia Li
- A Significant Computational Device of Modeling of Inverse Heat Transfer Problems 109-118
A. K. Borah
- Optimization of Thickness Variation of Cone Formed by Superplastic Forming of 119-123
Ti-6Al-4V Alloy
J. Babu, Abhijit Dutta and Amith Kumar
