

# International Journal of PRODUCTION AND QUALITY ENGINEERING

VOLUME 9 • NUMBER 2 • JULY-DECEMBER 2018

## CONTENTS

1. Data Rate Enhancement in OFDM Receiver using Adaptive Modulation and Channel Estimation based on Kalman Filter for Underwater Acoustic Communication .....77-86  
*Ravi Kumar M.G. and Mrinal Sarvagya*
2. Human Action Recognition Using Dynamic Time Warping Algorithm and Reproducing Kernel Hilbert Space for Matrix Manifold .....87-93  
*Wanhyun Cho, Sangkyoon Kim and Soonyoung Park*
3. Comparative Study of Potential Field and Sampling Algorithms for Manipulator Obstacle Avoidance .....95-102  
*Alekh V, Rahul ES and Rao R. Bhavani*
4. ICT Competency Model in Supporting Life-long Learner Towards Productive Aging .....103-109  
*Natrah Abdullah, Anishariah Ramli, Haryani Haron and Norisan Abd Karim*
5. Continuous Point Wise Key Information Extraction for Semantic Data Analysis .....111-122  
*Varghese S. Chooralil and N. Kumar*
6. Comparative Study of Various Solar Photo Voltaic Tracking Systems .....123-131  
*K. Mohanraj, Shreya Hazarika, Megha Katiyar and Shubham Dehankar*
7. Critical Review on the Competency Measurement Model of ICT Procurement Officer in Public Sector .....133-141  
*Azran Ahmad, Noor Habibah Arshad and Syaripah Ruzaini Syed Aris*
