## Electrical and Computer Sciences

- 1 **Roopam Sath** • **Nishchol Mishra** • **Sanjeev Sharma**  
Dual plane multiple spatial watermarking with self-encryption
- 15 **Aurobinda Panda** • **M K Pathak** • **S P Srivastava**  
A single phase photovoltaic inverter control for grid connected system
- 31 **C Rathna**  
PI controller scheme for charge balance in implantable electrical stimulators
- 47 **P Muralidhar** • **C R Ramaran**  
Efficient architecture for global elimination algorithm for H.264 motion estimation

## Mechanical Sciences

- 55 **J Satya Eswari** • **M Anand** • **C Venkateswarlu**  
Optimum culture medium composition for lipopeptide production by *Bacillus subtilis* using response surface model-based ant colony optimization
- 67 **M V A Raju Bahubalendruni** • **Bibhuti Bhusan Biswal**  
Liaison concatenation – A method to obtain feasible assembly sequences from 3D-CAD product
- 75 **Mohammad Vaghefi** • **Masoud Ghodsian** • **Saeid Salimi**  
The effect of circular bridge piers with different inclination angles toward downstream on scour
- 87 **A Adami** • **M Mortazavi** • **M Nosratollahi**  
Multidisciplinary approach to materials selection for bipropellant thrusters using ablative and radiative cooling

- 97 **Sushant K Biswal • Pranab Mohapatra • K Muralidhar**  
Hydraulics of combining flow in a right-angled compound open channel junction
- 111 **R S Nalawade • V R Marje • G Balachandran • V Balasubramanian**  
Effect of pass schedule and groove design on the metal deformation of 38MnVS6 in the initial passes of hot rolling
