

SĀDHANĀ

The Lead Journal in Engineering Sciences since 1978

Volume 41 ■ Number 2 ■ February 2016

Electrical and Computer Sciences

- 125 **Anirudh Guha • G Narayanan**
Modelling and analysis of an open-loop induction motor drive incorporating the effect of inverter dead-time
- 147 **K Saichand • Akshay Kumrawat • Vinod John**
High performance AC-DC control power supply for low voltage ride through inverters
- 161 **Zafar Ahmed Ansari • Gaurav Harit**
Nearest neighbour classification of Indian sign language gestures using kinect camera
- 183 **Kazem Dastgerdi • Nasser Mehrshad • Mobsen Farshad**
A new intelligent approach for air traffic control using gravitational search algorithm
- 193 **Rajendra Kumar Roul • Shubham Rohan Asthana • Mit Shah • Dhruvesh Parikh**
Detection of spam web page using content and link-based techniques: A combined approach

Mechanical Sciences

- 203 **Pankaj Kalita • Anupam Dewan • Sangeeta Borah**
A review on recent developments in solar distillation units
- 225 **Jeet Banerjee • Ranjit Ray • Siva Ram Krishna Vadali • Sankar Nath Shome • Sambhunath Nandy**
Real-time underwater image enhancement: An improved approach for imaging with AUV-150

- 239 **C Shrivankumar • Rajiv Tiwari**
Detection of a fatigue crack in a rotor system using full-spectrum based estimation
- 253 **Murat Kurt • Türkay Kotan • Muhammed Said Gül • Rüstem Gül • Abdulkadir Cüneyt Aydın**
The effect of blast furnace slag on the self-compactability of pumice aggregate lightweight concrete
- 265 **Shrikant A Tekade • Avinash D Vasudeo • Aniruddha D Ghare • Ramesh N Ingle**
Measurement of flow in supercritical flow regime using cutthroat flumes
