

# International Journal of ADVANCED MANUFACTURING SYSTEMS

VOLUME 10 NUMBER 1 January-June 2019

## Contents

- Low Energy Efficient Multiple Cluster Head (EEMCH) Protocol for Wireless Sensor Networks  
Srikanth Sundaran and Velappa Ganapathy 1-7
- Study of Emotive Brain Mapping using EEG  
Ajay Singh and M. Uma 9-18
- Comprehensive View of Energy Efficient Mr Scheduling Algorithms in Data Center Clusters of Data Centers  
Srikanth Sundaran and M. Ramesh 19-24
- Implementation of OpenFlow to Improve the Performance of SDN  
Ajay Singh and C T Manimegalai 25-32
- Optimizing the Amount of Chemical Dosage in Effluent Treatment Plant using Artificial Neural Network  
Srikanth Sundaran, V. Ganapathy and Pijush Samui 33-40
- Comparing Li-Fi as a Potential Substitute for Wi-Fi  
Srikanth Sundaran, Sunayana Baruah, Duggirala Aishwarya, Srikanth Sundaran, Srikanth Sundaran and C.T. Manimegalai 41-46
- Optimizing Quality of Fused Deposition Modeling Built Parts by Minimizing the Process Variables Using Polycarbonate Material  
Ajay Singh and Rishabh Maggirwar 47-55
- Design of Non-Linear Controller for a Ball and Beam System  
Mary Sabu, A. Brindha and A. Vimala Juliet 57-65
