

INTERNATIONAL JOURNAL OF NANOMATERIALS AND TECHNOLOGY

VOLUME 7

NUMBER 1

JUNE 2016

CONTENTS

| | | |
|--|---|-------|
| DSMC Simulations of Gas Flows Through 180 Degree Hairpin Bends in Circular Micro-Ducts | <i>Avik Sarkar & Suman Chakraborty</i> | 1-8 |
| Experimental and Numerical Investigation on Convective Heat Transfer Coefficient for the Turbulent Flow through Pipe Using Nanofluid | <i>S. P. Pendalwar, U. V. Bhandarkar & S. V. Prabhu</i> | 9-14 |
| Thermal Analysis of Microheaters using Mechanical Dynamic Response | <i>Balaji Jayaraman, Navakanta Bhat & Rudra Pratap</i> | 15-20 |
| Universal Capacitance Sensor | <i>Santosh Hegde, Thejas & Navakanta Bhat</i> | 21-27 |
| Optical and Structural Properties of O_2 ion Bombarded $CdTe$ Thin Film | <i>S. Shanmugan, S. Balaji & N. Sankarasubramanian</i> | 29-33 |
| Optimal Design of Miniature Grippers and their Prototyping with Spring Steel and PDMS | <i>Deepak K. Sahu & G. K. Ananthasuresh</i> | 35-43 |
| Realisation of Tunable Capacitors Using $(Bi_{1-x}Zn_x)(Zn_{1-x}Nb_x)O_3$ Thin Films | <i>K. Sudheendran & K. C. James Raju</i> | 45-47 |
| An Ultra-Stable Cu Nanowire under Thermo-Mechanical Loading: A Molecular Dynamic Study | <i>Vijay Kumar Sutrar & D. Roy Mahapatra</i> | 49-56 |
| Effect of Process Induced Variations on Performance Characteristics of a Dual Mass Vibratory MEMS Gyroscope | <i>K. A. Lohar, Venkatesh K. P. & Rudra Pratap</i> | 57-63 |
| Developing a Polymeric Microcantilever Platform Technology for Biosensing Applications | <i>Seena V., Nitin S. Kale, Sudip Nag, Manoj Joshi, Soumyo Mukherji & V. Ramgopal Rao</i> | 65-70 |
