CONTENTS

1
338

- Retinal Blood Vessel Segmentation Algorithm for Diabetic Retinopathy and Abnormality 1-4**
Classification by Supervised Machine Learning
M. Kavitha and S. Palani
- A Neural Network Approach for the Precise Pattern Recognition of Human Dna 5-11**
B. Mukunthan
- Nuclear Energy AB-Generator* and its Application 13-23**
Alexander Bolonkin
- Wing Relativistic AB-Ship 25-31**
Alexander Bolonkin
- Long Distance Transfer of Mechanical Energy 33-37**
Alexander Bolonkin
- Back-propagation Neural Network Model to Predict Split Tensile Strength of Metakaolin..... 39-42**
Blended Fiber-reinforced High-performance-concrete
DR. NRM Reddy
- Texture Classification based on Neural Network and Wavelet Transform 43-47**
Ingole A. B. and Roopa Kakkeri
- Comparative study of Financial Time Series Prediction By Artificial Neural Network with 49-54**
Gradient Descent Learning
Arka Ghosh
