

International Journal of
SUSTAINABLE CIVIL ENGINEERING

VOLUME 8

NUMBER 1

JANUARY-JUNE 2016

CONTENTS

- An Innovative Theoretical Framework for Achieving 1-8
Competitive Advantage in Construction
Santanu Satpathy & R. N. Satpathy
- Some Studies of Innovation and Uncertainty for Achieving 9-16
Competitive Advantage in Construction
B. Tripathy & R. N. Satpathy
- Overview of The Relationship between Innovation, Sustainability 17-25
and Competitive Advantage in Construction
Sweta Padma Panda & R. N. Satpathy
- Application of Wireless Sensor Network to Design & 27-34
Configuration of Network Health Monitoring System
B. P. Behera & R. N. Satpathy
- Studies of The Use of Wireless Sensor Network in 35-41
Civil Structures
S. S. Routray & R. N. Satpathy
- The Role of Market Assessment in Pulling Innovation and 43-51
Pushing Sustainable Growth in Construction and Other
Industries
L. N. Das & R. N. Satpathy
