

JOURNAL OF ADVANCED RESEARCH IN COMPUTER ENGINEERING

VOLUME 11

NUMBER 1

JANUARY-JUNE 2017

Contents

1. Cascaded H-Bridge Multilevel Inverter 1-8
Akanksha Dubey and Ajay Kumar Bansal
2. An R2RI approach updating Relational data through SPARQL/Update 9-24
V. Sitharamulu and B. Raveendra Babu
3. An Efficient Approach for Packet Dropping Detection Using PGLP with Trace Back Mechanism 25-32
Priyanka and M. Devika
4. Evaluation of Iron Content in SWI brain Images based on GLCM features 33-40
Beshiba Wilson and Julia Punitha Malar Dhas
5. QoS Satisfaction in MANET Based Real Time Applications 41-55
Mamata Rath, Binod Kumar Pattanayak and Bibudhendu Pati
6. Static analysis of Firefox OS privileged applications to detect permission policy violations 57-65
Shahanas P. and Jevitha K.P.
7. Research Paper on Privacy Preservation by Data Anonymization in Public Cloud for Hospital Management on Big data 67-74
P. Shyja Rose, J. Visumathi and H. Haripriya
8. A Study on The Impact of Wordnet for Query Reformulation over Vertical Search Engines 75-80
Ruban S. and Behin Sam
9. Substitution Based Rules for Efficient Code Duplication on Object Oriented Systems 81-87
Anoop Sreekumar R.S. and R. V. Sivabalan
