

International Journal of Mobile Communication and Networking

Volume 10, Number 1 (2019)

Contents

- Improvisation of Hole Detection and Healing In Wireless Sensor Network** 1-9
K. Stephena, E. Annadevi
- Overhead Reduction And Security Enhancement In Mobile Ad-Hoc Networks** 11-24
Hezibah Golda M¹ and Amrutha V².
- Analysis of Various Controllers for Single Phase Shunt Active Filter** 25-35
P. Ezhil Meera, D. Uma, K.Vijayarekha
- Wavelet Based Analysis Of Power Transients In Different UPS Systems For ICU Applications** 37-46
J. Sangeetha
- TLS: Improving Security For Mobility Based MANET Using Three Level Security Mechanism** 47-55
R. Rajamohamed, V.Rajamani
- Image Reconstruction from Orthogonal Matching Pursuit Based on the Design of Bi-orthogonal Wavelets Using Factorization of A Generalized Half-band Polynomial** 57-68
Pramod M. Kanjalkar^a and Dr. M. Venu Gopal Rao^b
- Design of High throughput 512-Point FFT Processor Using Wallace-tree Multiplier** 69-78
Nandhini.A¹ and Magthelin therase.L²
- A Survey On Research Challenges In Data Center Energy Efficiency** 79-91
Ms.A.Safiya Parvin and Dr.P.Muthu Chelvi
