VOLUME 25
CODEN : IEMSEW

NUMBER 5

OCTOBER 2018
ISSN : 0971-4588

CONTENTS

Experimental and numerical evaluation of geometric variation of critical SZW in 20MnMoNi55 steel Sanjeev Saxena & B K Dutta	357
Application of advanced algorithms for enhancement in machining performance of Inconel 718 Yogesh V Deshpande, Atul B Andhare, P M Padole & N K Sahu	366
An experimental investigation into the role of sintering temperature on the metal removal rate of titanium powder metallurgy products through Taguchi method Arunangsu Das, Susenjit Sarkar, Malobika Karanjai & Goutam Sutradhar	377
Multi-performance optimization of micro-drilling using Taguchi technique based on membership function K Shunmugesh & K Panneerselvam	383
Effects of mechanical roll-milling on electronic and optical properties of ZnO nanoparticles U Olgun & M Gülfen	391
Effect of molybdenum disulfide nanofluid application as coolant in milling process of Al8Si3Cu aluminum alloy Ayub Karimzad Ghavidel, Mirsadegh Seyedzavvar & Mohammadreza Shabgard	397
Multi-performance optimization of abrasive water jet machining of carbonepoxy composite material Ajit Dhanawade & Shailendra Kumar	406
Fluorescence stress sensing with SrSiAlN ₃ :Eu ²⁺ phosphor-silicone composite W W Zhang, C F Qin, K X Shi & R H Xu	417
Corrosion resistance of borided layers obtained on XC38 steel Allaoui Laid Abdelkrim & Allaoui Omar	421
Evaluation of tensile, flexural and impact properties on sisal/glass fiber reinforced polymer hybrid composite S Ragnath, C Velmurugan, T Kannan & S Thirugnanam	425
