CONTENTS

Papers

- Performance evaluation of mechanical micro-drilling, electrical discharge machining and laser beam machining on Nimonic 80A alloy 437
Sake Sudhakar, Praveen Kumar, G Srinivas, S Ravishankar, D Chakradhar & Harish C Barshilia
- Influence of LBW parameters on properties of Ti6Al4V/AA2024 dissimilar alloy joint 445
K Kalaiselvan, A Elango, N M Nagarajan & K Sekar
- Impact response and damage resistance behavior of GFRP/aluminium fiber metal laminates during low velocity impact test 450
V Asha Melba & A Senthil Kumar
- Effect of alkali treatment and nano filler addition on properties of palm/glass fiber reinforced polymer composite 459
P Pradeep & J Edwin Raja Dhas
- Development and comparison of cotton dust waste – jute and cotton dust waste – glass fiber reinforced epoxy based hybrid composites 465
S Ramprasad, M Venkata Ramana & M Manzoor Hussain
- Digital signal processing-based volumetric error improvement of a CNC machine tool using Kriging interpolation 473
Xiaoni Qi, Qianjian Guo, Jie Yu, Xiang Cheng & Guoyong Zhao
- Twinning and dynamic recrystallization in AZ31 magnesium alloy under medium-high strain rate 480
Xiao Liu, Guangjie Huang, Luoxing Li, Chanping Tang, Biwu Zhu & Wenhui Liu
- Flexural analysis of posttensioned reinforced concrete beams using external steel bars 487
Swoo-Heon Lee, Hee-Du Lee & Kyung-Jae Shin
- Effect of production process parameters on high temperature stability of rubber asphalt mastic 498
Haichao An, Renfeng Yang & Wei Yuan
- Acknowledgement to Reviewers** 507
- Annual Author Index** 515
