

# International Journal of **DATA WAREHOUSING**

Volume 11 • Number 1 • January-June 2018

## Contents

1. Detection and Classification of Brain Tumour using Back Propagation Algorithm ..... 1-8  
*M. Malathi, K. Sujatha and Sinthia P.*
2. Design and Simulation of Maximum Power Point Tracking based Wind energy ..... 9-18  
Conversion system with Battery using Cascaded Multilevel Inverter  
*Mamatha Sandhu and Tilak Thakur*
3. Enhancement of Power System Security through Security Constrained Optimal ..... 19-32  
Power Flow using Binary Particle Swarm Optimization  
*M. Manoj Kumar, V. Sundaravazhuthi and  
R. Muralisachithanandam*
4. Minimization of The DC Component in Transformerless Photovoltaic Inverter System ..... 33-44  
by Fuzzy Controller  
*G. Venkatesh, B. Murali Mohan and M. Neha Sarath Chandrika*
5. Vanet Monitoring Using Sensor to Prevent Intellectual Transportation Traffic ..... 45-50  
*Gopi R. and A. Rajesh*
6. Automatic Detection of Synchronous Multiple Primary Lung Cancer in Lung ..... 51-57  
CT images using PML Techniques  
*G. Niranjana and M. Ponnaivaikko*
7. Data Extraction and Analysis of Electronic Health Records for prediction of Flu ..... 59-64  
*M. Nirupama Bhat, N. Veeranjanyulu and B. Jyostna Devi*
8. An FPGA-based implementation of a vector coprocessor for control applications ..... 65-75  
*Nitish Das and P. Aruna Priya*
