

# International Journal of Electronics and Communication Engineering

Volume 11, Number 1 (2018)

## Contents

- Allocation and Water Price Model at Multi Reservoir River System** 1-16  
*Rispiningtati*
- Spoken Language Identification System for Web Audio and Videos** 17-24  
*Drisy D and Dr.C.Santhosh Kumar*
- Enhanced BeeGA Algorithm for Route Optimization in Vehicular Ad Hoc Networks(VANETs)** 25-46  
*Daljeet Singh Motton\* and Arvind Kumar*
- Optimization for a Novel Single Switch Resonant Power Converter using GA to improve MPPT efficiency of PV Applications** 47-54  
*M Siva Ram Kumar, Dr. A Amudha and R Rajeev*
- Optimization of Sensing Time in Energy Detector Based Sensing of Cognitive Radio Network** 55-66  
*Ashim Jyoti Gogoi, Chabungbam Lison Singh, Sourav Nath and Krishna Lal Baishnab*
- Simulation and Implementation of Perturb and observe Fuzzy based DC-DC Converter in PV-Battery Hybrid System** 67-81  
*Lakshman Rao S. Paragond*
- Joint Flock based Quantization and Antenna Combining Approach for MCCDMA Systems with Limited Feedback** 83-97  
*G. Senthilkumar and Dr. P. Shanmugapriya*
