Discussion is welcomed for all materials published in this issue and will appear ten months from this journal's date if the discussion is received within four months of the paper's print publication. Discussion of material received after specified dates will be considered individually for publication or private response. ACI Standards published in ACI Journals for public comment have discussion due dates printed with the Standard.

**Depth Effect in Deep Beams.** Paper by David B. Birrcher, Robin G. Tuchscherer, Matt Huizinga, and Oguzhan Bayrak

**Shear Strength of Reinforced Concrete Beams.** Paper by Wu Wei Kuo, Thomas T. C. Hsu, and Shyh Jiann Hwang

**Experimental Evaluation of Strut-and-Tie Model of Indeterminate Deep Beam.** Paper by D. B. Garber, J. M. Gallardo, G. D. Huaco, V. A. Samaras, and J. E. Breen

## MEETINGS

### MAY

11-13—**2015 International Concrete Sustainability Conference**, Miami, FL, [www.concretesustainabilityconference.org](http://www.concretesustainabilityconference.org)

14-16—**The American Institute of Architects Convention**, Atlanta, GA, <http://convention.aia.org/event/homepage.aspx>

14-17—**The Masonry Society 2015 Spring Meetings**, Denver, CO, [www.masonrysociety.org/html/calendar/index.htm](http://www.masonrysociety.org/html/calendar/index.htm)

17-20—**12th North American Masonry Conference**, Denver, CO, [www.masonrysociety.org/NAMC/index.html](http://www.masonrysociety.org/NAMC/index.html)

24-26—**Fifth International Symposium on Nanotechnology in Construction**, Chicago, IL, [www.nicom5.org](http://www.nicom5.org)

### JUNE

1-3—**7th RILEM Conference on High Performance Fiber Reinforced Cement Composites**, Stuttgart, Germany, [www.rilem.org/gene/main.php?base=600040#next\\_614](http://www.rilem.org/gene/main.php?base=600040#next_614)

1-3—**International Conference on the Regeneration and Conservation of Concrete Structures (RCCS)**, Nagasaki, Japan, [www.jci-net.or.jp/~info-rccs](http://www.jci-net.or.jp/~info-rccs)

2-5—**Deep Mixing 2015**, San Francisco, CA, [www.dfi.org/dfieventlp.asp?13237](http://www.dfi.org/dfieventlp.asp?13237)

3-7—**5th International Congress on Construction History**, Chicago, IL, [www.5icch.org](http://www.5icch.org)

7-10—**International Airfield & Highway Pavements Conference**, Miami, FL, [www.pavementsconference.org](http://www.pavementsconference.org)

7-10—**11th International Symposium on Ferrocement (FERRO-11) and International Conference on Textile Reinforced Concrete (3rd ICTRC)**, Aachen, Germany, <http://ferro11.ibac.rwth-aachen.de>

8-11—**International Bridge Conference (IBC)**, Pittsburgh, PA, [www.eswp.com/bridge](http://www.eswp.com/bridge)

## Contributions to ACI Structural Journal

The *ACI Structural Journal* is an open forum on concrete technology and papers related to this field are always welcome. All material submitted for possible publication must meet the requirements of the "American Concrete Institute Publication Policy" and "Author Guidelines and Submission Procedures." Prospective authors should request a copy of the Policy and Guidelines from ACI or visit ACI's website at [www.concrete.org](http://www.concrete.org) prior to submitting contributions.

Papers reporting research must include a statement indicating the significance of the research.

The Institute reserves the right to return, without review, contributions not meeting the requirements of the Publication Policy.

All materials conforming to the Policy requirements will be reviewed for editorial quality and technical content, and every effort will be made to put all acceptable papers into the information channel. However, potentially good papers may be returned to authors when it is not possible to publish them in a reasonable time.

### Discussion

All technical material appearing in the *ACI Structural Journal* may be discussed. If the deadline indicated on the contents page is observed, discussion can appear in the designated issue. Discussion should be complete and ready for publication, including finished, reproducible illustrations. Discussion must be confined to the scope of the paper and meet the ACI Publication Policy.

Follow the style of the current issue. Be brief—1800 words of double spaced, typewritten copy, including illustrations and tables, is maximum. Count illustrations and tables as 300 words each and submit them on individual sheets. As an approximation, 1 page of text is about 300 words. Submit one original typescript on 8-1/2 x 11 plain white paper, use 1 in. margins, and include two good quality copies of the entire discussion. References should be complete. Do not repeat references cited in original paper; cite them by original number. Closures responding to a single discussion should not exceed 1800-word equivalents in length, and to multiple discussions, approximately one half of the combined lengths of all discussions. Closures are published together with the discussions.

Discuss the paper, not some new or outside work on the same subject. Use references wherever possible instead of repeating available information.

Discussion offered for publication should offer some benefit to the general reader. Discussion which does not meet this requirement will be returned or referred to the author for private reply.
