ACI STRUCTURAL JOURNAL

JANUARY-FEBRUARY 2016, V. 113, No. 1

A JOURNAL OF THE AMERICAN CONCRETE INSTITUTE
AN INTERNATIONAL TECHNICAL SOCIETY

- 3 **Reducing Discrepancy between Deep Beam and Sectional Shear-Strength Predictions**, by Robin G. Tuchscherer, David B. Birrcher, and Oguzhan Bayrak
- 17 **Behavior of Deep Beams Containing High-Strength Longitudinal Reinforcement**, by Juan de Dios Garay-Moran and Adam S. Lubell
- 29 **Interface between Near-Surface-Mounted Carbon Fiber-Reinforced Polymer and Concrete in Thermal Distress**, by Yail J. Kim and Abdul R. Namrou
- 39 **Precast Fiber-Reinforced Concrete Barriers with Integrated Sidewalk**, by Amadou Thiaw, Jean-Philippe Charron, and Bruno Massicotte
- 51 **Shear Performance of Reinforced Concrete Beams with Corroded Stirrups Strengthened with Carbon Fiber-Reinforced Polymer**, by Hongming Li, Jin Wu, and Zhe Wang
- 63 **Measured Load Capacity of Buried Reinforced Concrete Pipes**, by Katrina MacDougall, Neil A. Hoult, and Ian D. Moore
- 75 **Behavior of Steel Fiber-Reinforced Concrete under Reversed Cyclic Shear**, by Jun Wei Luo and Frank J. Vecchio
- 85 **Measured Transfer Lengths of 0.7 in. (17.8 mm) Strands for Pretensioned Beams**, by Canh N. Dang, Royce W. Floyd, W. Micah Hale, and J. R. Martí-Vargas
- 95 **Tangential Strain Theory for Punching Failure of Flat Slabs**, by Carl Erik Broms
- 105 **Method for Approximation of ASR/DEF Damage in Concrete Columns**, by Kimberly G. Talley, Jacob G. Kapitan, and John E. Breen
- 111 **Testing and Behavior of a Coupled Shear Wall Structure with Partially Post-Tensioned Coupling Beams**, by Steven M. Barbachyn, Yahya C. Kurama, Michael J. McGinnis, and Richard Sause
- 125 **Size Effect on Shear Strength of Glass Fiber-Reinforced Polymer-Reinforced Concrete Continuous Beams**, by Karam Mahmoud and Ehab El-Salakawy
- 135 **Study on Influence of Column Size and Slab Slenderness on Punching Strength**, by Jürgen Einpaul, Jan Bujnak, Miguel Fernández Ruiz, and Aurelio Muttoni

Contents cont. on next page

Discussion is welcomed for all materials published in this issue and will appear ten months from this journal's date if the discussion is received within four months of the paper's print publication. Discussion of material received after specified dates will be considered individually for publication or private response. ACI Standards published in ACI Journals for public comment have discussion due dates printed with the Standard.

CONTENTS

- 147 **High-Strength Fiber-Reinforced Concrete Beam-Columns with High-Strength Steel**, by Luis Ibarra and Birhanu Bishaw
- 157 **Experimental Study of Reinforced Concrete Slabs under Different Loading Rates**, by Yao Xiao, Bing Li, and Kazunori Fujikake
- 169 **Defining Yield Strength for Nonprestressed Reinforcing Steel**, by Conrad Paulson, Jeffrey M. Rautenberg, Scott K. Graham, and David Darwin
- 179 **Cyclic Lateral Testing of Precast Concrete T-Walls in Fast Low-Rise Construction**, by Woo-Young Lim, Thomas H.-K. Kang, and Sung-Gul Hong
- 191 **Discussion**
- Wide Beam Shear Behavior with Diverse Types of Reinforcement.** Paper by S. E. Mohammadyan-Yasouj, A. K. Marsono, R. Abdullah, and M. Moghadasi

MEETINGS

JANUARY

- 10-14—2016 TRB Annual Meeting, Washington, DC, www.trb.org/AnnualMeeting/AnnualMeeting.aspx
- 11-15—Building Innovation 2016 Conference & Expo, Washington, DC, www.nibs.org/?page=conference2016
- 19-21—2016 NAHB International Builders' Show, Las Vegas, NV, www.buildersshow.com/Home
- 27-29—Advances in Cement and Concrete Technology in Africa 2016, Dar es Salaam, Tanzania, www.accta2016.com

JANUARY/FEBRUARY

- 31-5—2016 Mason Contractors Association of America Convention, Las Vegas, NV, www.masoncontractors.org/convention

FEBRUARY

- 1—International Concrete Polishing & Staining Conference, Las Vegas, NV, www.icpsc365.com
- 1-5—World of Concrete 2016, Las Vegas, NV, www.worldofconcrete.com
- 21-25—2016 ICPI Annual Meeting, Orlando, FL, www.icpi.org/node/4859

UPCOMING ACI CONVENTIONS

The following is a list of scheduled ACI conventions:

- 2016—April 17-21, Hyatt & Wisconsin Center, Milwaukee, WI
- 2016—October 23-27, Marriott Philadelphia, Philadelphia, PA
- 2017—March 26-30, Detroit Marriott at the Renaissance Center, Detroit, MI

For additional information, contact:

Event Services, ACI
38800 Country Club Drive, Farmington Hills, MI 48331
Telephone: +1.248.848.3795
e-mail: conventions@concrete.org

ON COVER: 113-S11, p. 116, Fig. 8—40%-scale experimental setup (adapted from Barbachyn et al.): (a) 3-D rendering; and (b) completed structure.

Permission is granted by the American Concrete Institute for libraries and other users registered with the Copyright Clearance Center (CCC) to photocopy any article contained herein for a fee of \$3.00 per copy of the article. Payments should be sent directly to the Copyright Clearance Center, 21 Congress Street, Salem, MA 01970. ISSN 0889-3241/98 \$3.00. Copying done for other than personal or internal reference use without the express written permission of the American Concrete Institute is prohibited. Requests for special permission or bulk copying should be addressed to the Managing Editor, *ACI Structural Journal*, American Concrete Institute.

The Institute is not responsible for statements or opinions expressed in its publications. Institute publications are not able to, nor intend to, supplant individual training, responsibility, or judgment of the user, or the supplier, of the information presented.

Papers appearing in the *ACI Structural Journal* are reviewed according to the Institute's Publication Policy by individuals expert in the subject area of the papers.

Contributions to *ACI Structural Journal*

The *ACI Structural Journal* is an open forum on concrete technology and papers related to this field are always welcome. All material submitted for possible publication must meet the requirements of the "American Concrete Institute Publication Policy" and "Author Guidelines and Submission Procedures." Prospective authors should request a copy of the Policy and Guidelines from ACI or visit ACI's website at www.concrete.org prior to submitting contributions.

Papers reporting research must include a statement indicating the significance of the research.

The Institute reserves the right to return, without review, contributions not meeting the requirements of the Publication Policy.

All materials conforming to the Policy requirements will be reviewed for editorial quality and technical content, and every effort will be made to put all acceptable papers into the information channel. However, potentially good papers may be returned to authors when it is not possible to publish them in a reasonable time.

Discussion

All technical material appearing in the *ACI Structural Journal* may be discussed. If the deadline indicated on the contents page is observed, discussion can appear in the designated issue. Discussion should be complete and ready for publication, including finished, reproducible illustrations. Discussion must be confined to the scope of the paper and meet the ACI Publication Policy.

Follow the style of the current issue. Be brief—1800 words of double spaced, typewritten copy, including illustrations and tables, is maximum. Count illustrations and tables as 300 words each and submit them on individual sheets. As an approximation, 1 page of text is about 300 words. Submit one original typescript on 8-1/2 x 11 plain white paper, use 1 in. margins, and include two good quality copies of the entire discussion. References should be complete. Do not repeat references cited in original paper; cite them by original number. Closures responding to a single discussion should not exceed 1800-word equivalents in length, and to multiple discussions, approximately one half of the combined lengths of all discussions. Closures are published together with the discussions.

Discuss the paper, not some new or outside work on the same subject. Use references wherever possible instead of repeating available information.

Discussion offered for publication should offer some benefit to the general reader. Discussion which does not meet this requirement will be returned or referred to the author for private reply.
