ACI STRUCTURAL JOURNAL

MARCH-APRIL 2016, V. 113, No. 2

A JOURNAL OF THE AMERICAN CONCRETE INSTITUTE
AN INTERNATIONAL TECHNICAL SOCIETY

- 195 **Multi-Span Members with Unbonded Tendons: Ultimate Strength Behavior**, by Marc Maguire, William N. Collins, Kedar R. Halbe, and Carin L. Roberts-Wollmann
- 205 **Cyclic Loading Test for Cast-in-Place Concrete-Filled Hollow Precast Concrete Columns**, by Chang-Soo Kim, Woo-Young Lim, Hong-Gun Park, and Jung-Keun Oh
- 217 **An Investigation on the Seismic Behavior of Deep Reinforced Concrete Coupling Beams**, by Erwin Lim, Shyh-Jiann Hwang, Ting-Wei Wang, and Yu-Hsuan Chang
- 227 **Discrete Shear Strength of Two- and Seven-Circular-Hoop and Spiral Transverse Reinforcement**, by Yu-Chen Ou and Si-Huy Ngo
- 239 **Functional Performance of Bridge Girders Strengthened with Post-Tensioned Near-Surface-Mounted Carbon Fiber-Reinforced Polymer**, by Yail J. Kim, Jae-Yoon Kang, Jong-Sup Park, and Woo-Tai Jung
- 251 **Long-Term Performance of Adhesive Bonded Anchors**, by Rasoul Nilforoush, Martin Nilsson, Gunnar Söderlind, and Lennart Elfgren
- 263 **Shear Strength of Composite Beams with Dual Concrete Strengths**, by Chul-Goo Kim, Hong-Gun Park, Geon-Ho Hong, and Su-Min Kang
- 275 **Analysis of Steel Fiber-Reinforced Concrete Elements Subjected to Shear**, by Seong-Cheol Lee, Jae-Yeol Cho, and Frank J. Vecchio
- 287 **Structural Behavior of Thin Prestressed Slab Beams in Bridges**, by Sinjaya Tan, C. H. Luu, Y. L. Mo, Thomas T. C. Hsu, and Abdeldjelil Belarbi
- 301 **Revisiting Unreinforced Strut Efficiency Factor**, by Ray Kai Leung Su and Daniel Ting Wee Looi
- 313 **Prestress Loss Database for Pretensioned Concrete Members**, by David B. Garber, José M. Gallardo, Dean J. Deschenes, and Oguzhan Bayrak
- 325 **Axial Load Response of Ultra-High-Strength Concrete Columns and High-Strength Reinforcement**, by Hyun-Oh Shin, Young-Soo Yoon, William D. Cook, and Denis Mitchell
- 337 **Punching Shear in Post-Tensioned Flat Slabs with Shear Reinforcement: Codes and Tests**, by Alessandra L. Carvalho, Guilherme S. Melo, and Ronaldo B. Gomes

Contents cont. on next page

Discussion is welcomed for all materials published in this issue and will appear ten months from this journal's date if the discussion is received within four months of the paper's print publication. Discussion of material received after specified dates will be considered individually for publication or private response. ACI Standards published in ACI Journals for public comment have discussion due dates printed with the Standard.

CONTENTS

- 349 **Testing of Reinforced Concrete Frames Extracted from a Building Damaged during the Canterbury Earthquakes**, by Kevin Walsh, Richard Henry, Gye Simkin, Nicholas Brooke, Barry Davidson, and Jason Ingham
- 363 **Simplified Modeling of Frame Elements Subjected to Blast Loads**, by Serhan Guner
- 373 **Reliability-Based Study on Ductility Measures of Reinforced Concrete Beams in ACI 318**, by Hassan Baji and Hamid Reza Ronagh
- 383 **Bond Properties between Concrete and Corrosion-Resistant Reinforcing Steels**, by Christopher D. Moen and Stephen R. Sharp
- 393 **Effect of Polypropylene Fibers and Wire Mesh on Fire Performance of Precast Concrete Walls**, by Thanyawat Pothisiri, Soklin Chou, and Chutimon Sektheera
- 405 **Authors' Update**
- Pervasiveness of Excessive Segmental Bridge Deflections: Wake-Up Call for Creep.** Paper and update by Zdeněk P. Bažant, Mija H. Hubler, and Qiang Yu
- 406 **2015 Reviewers**

MEETINGS

MARCH

10-11—**Sydney Build 2016**, Sydney, Australia, www.sydneybuildexpo.com

16-18—**ICRI 2016 Spring Convention**, San Juan, PR, www.icri.org/Events/events_list.asp

17-18—**1st International Conference on Grand Challenges in Construction Materials (IGCMAT 2016)**, Los Angeles, CA, www.igcmat.com

20-22—**ACPA Annual Convention**, Tucson, AZ, www.concretepipe.org/event/acpa-annual-convention

20-22—**2016 University Professor's Masonry Workshop**, La Jolla, CA, www.masonrysociety.org/html/calendar/index.htm

21-24—**2016 National Hurricane Conference**, Orlando, FL, <http://hurricanemeeting.com>

28-30—**ACI-KC 4th International Conference and Exhibition**, Kuwait, http://aci-kw.org/news_ACI_4th_conference.htm

UPCOMING ACI CONVENTIONS

The following is a list of scheduled ACI conventions:

2016—April 17-21, Hyatt & Wisconsin Center, Milwaukee, WI

2016—October 23-27, Marriott Philadelphia, Philadelphia, PA

2017—March 26-30, Detroit Marriott at the Renaissance Center, Detroit, MI

For additional information, contact:

Event Services, ACI

38800 Country Club Drive, Farmington Hills, MI 48331

Telephone: +1.248.848.3795

e-mail: conventions@concrete.org

ON COVER: 113-S29, p. 330, Fig. 5—UHSC columns at end of testing: (a) NT-series; (b) HT-series; (c) HL-series; and (d) close-up of failure regions.

Permission is granted by the American Concrete Institute for libraries and other users registered with the Copyright Clearance Center (CCC) to photocopy any article contained herein for a fee of \$3.00 per copy of the article. Payments should be sent directly to the Copyright Clearance Center, 21 Congress Street, Salem, MA 01970. ISSN 0889-3241/98 \$3.00. Copying done for other than personal or internal reference use without the express written permission of the American Concrete Institute is prohibited. Requests for special permission or bulk copying should be addressed to the Managing Editor, *ACI Structural Journal*, American Concrete Institute.

The Institute is not responsible for statements or opinions expressed in its publications. Institute publications are not able to, nor intend to, supplant individual training, responsibility, or judgment of the user, or the supplier, of the information presented.

Papers appearing in the *ACI Structural Journal* are reviewed according to the Institute's Publication Policy by individuals expert in the subject area of the papers.

Contributions to *ACI Structural Journal*

The *ACI Structural Journal* is an open forum on concrete technology and papers related to this field are always welcome. All material submitted for possible publication must meet the requirements of the "American Concrete Institute Publication Policy" and "Author Guidelines and Submission Procedures." Prospective authors should request a copy of the Policy and Guidelines from ACI or visit ACI's website at www.concrete.org prior to submitting contributions.

Papers reporting research must include a statement indicating the significance of the research.

The Institute reserves the right to return, without review, contributions not meeting the requirements of the Publication Policy.

All materials conforming to the Policy requirements will be reviewed for editorial quality and technical content, and every effort will be made to put all acceptable papers into the information channel. However, potentially good papers may be returned to authors when it is not possible to publish them in a reasonable time.

Discussion

All technical material appearing in the *ACI Structural Journal* may be discussed. If the deadline indicated on the contents page is observed, discussion can appear in the designated issue. Discussion should be complete and ready for publication, including finished, reproducible illustrations. Discussion must be confined to the scope of the paper and meet the ACI Publication Policy.

Follow the style of the current issue. Be brief—1800 words of double spaced, typewritten copy, including illustrations and tables, is maximum. Count illustrations and tables as 300 words each and submit them on individual sheets. As an approximation, 1 page of text is about 300 words. Submit one original typescript on 8-1/2 x 11 plain white paper, use 1 in. margins, and include two good quality copies of the entire discussion. References should be complete. Do not repeat references cited in original paper; cite them by original number. Closures responding to a single discussion should not exceed 1800-word equivalents in length, and to multiple discussions, approximately one half of the combined lengths of all discussions. Closures are published together with the discussions.

Discuss the paper, not some new or outside work on the same subject. Use references wherever possible instead of repeating available information.

Discussion offered for publication should offer some benefit to the general reader. Discussion which does not meet this requirement will be returned or referred to the author for private reply.
