ACI STRUCTURAL JOURNAL

MAY-JUNE 2016, V. 113, No. 3

A JOURNAL OF THE AMERICAN CONCRETE INSTITUTE
AN INTERNATIONAL TECHNICAL SOCIETY

- 435 **Seismic Response of Fiber-Reinforced Concrete Coupled Walls**, by Rémy D. Lequesne, Gustavo J. Parra-Montesinos, and James K. Wight
- 447 **Shear Response of Prestressed Thin-Webbed Continuous Girders**, by Michael P. Collins, Liping Xie, Boyan I. Mihaylov, and Evan C. Bentz
- 459 **Using Mohr-Coulomb Criterion to Estimate Shear Strength of Reinforced Concrete Columns**, by Santiago Pujol, Nobuaki Hanai, Toshikatsu Ichinose, and Mete A. Sozen
- 469 **Large Reinforced Concrete Special Moment Frame Beams under Simulated Seismic Loading**, by Tea Visnjic, Grigorios Antonellis, Marios Panagiotou, and Jack P. Moehle
- 481 **Reliability of Temperature-Dependent Models for Analysis of Reinforced Concrete Members Subjected to Fire**, by Fady ElMohandes and Frank J. Vecchio
- 491 **Design of Indirectly Loaded Large Footings for One-Way Shear**, by Almila Uzel, Evan C. Bentz, and Michael P. Collins
- 503 **Anchorage Models for Reinforced Concrete Beam-Column Joints under Quasi-Static Loading**, by Ricardo Costa, Paulo Providência, and Alfredo Dias
- 515 **Cyclic Tests of Reinforced Concrete Coupling Beam with Intermediate Span-Depth Ratio**, by Erwin Lim, Shyh-Jiann Hwang, Chih-Hung Cheng, and Pin-Yi Lin
- 525 **Measured Development Lengths of 0.7 in. (17.8 mm) Strands for Pretensioned Beams**, by Canh N. Dang, Royce W. Floyd, W. Micah Hale, and J. R. Martí-Vargas
- 537 **Resilience of Flat Slab Structures in Different Phases of Progressive Collapse**, by Kai Qian and Bing Li
- 549 **Bond of Reinforcement in High-Strength Concrete**, by Joseph Jones and Julio A. Ramirez
- 557 **Time-Dependent Deflection of Slab Affected by Construction Load**, by Hyeon-Jong Hwang, Hong-Gun Park, Geon-Ho Hong, Jae-Yo Kim, and Yong-Nam Kim
- 567 **Thermomechanical Behavior of Near-Surface-Mounted Carbon Fiber-Reinforced Polymer Concrete Interface**, by Thushara Siriwardanage and Yail J. Kim

Contents cont. on next page

Discussion is welcomed for all materials published in this issue and will appear ten months from this journal's date if the discussion is received within four months of the paper's print publication. Discussion of material received after specified dates will be considered individually for publication or private response. ACI Standards published in ACI Journals for public comment have discussion due dates printed with the Standard.

CONTENTS

- 577 **Effect of Longitudinal Carbon Fiber-Reinforced Polymer Plates on Shear Strength of Reinforced Concrete Beams**, by Waleed Nawaz, Rami A. Hawileh, Elias I. Saqan, and Jamal A. Abdalla
- 587 **Stud Rail Systems as Shear Reinforcement in Beams and One-Way Slabs**, by Mahmoodreza Soltani, Shreyas Indurkar, and Brandon E. Ross
- 595 **Interfacial Behavior of Glass Fiber-Reinforced Polymer Bars Embedded in Concrete with Internal Curing Agents**, by Yail J. Kim and Jun Wang
- 605 **High-Strength Reinforcement in Columns under High Shear Stresses**, by Drit Sokoli and Wassim M. Ghannoum
- 615 **Seismic Repair of Severely Damaged Precast Reinforced Concrete Bridge Columns Connected with Grouted Splice Sleeves**, by Joel E. Parks, Dylan N. Brown, M. J. Ameli, and Chris P. Pantelides
- 627 **Experiments on Punching Shear Behavior of Prestressed Concrete Bridge Decks**, by Sana Amir, Cor van der Veen, Joost C. Walraven, and Ane de Boer
- 637 **Discussion**
Shear Behavior and Diagonal Crack Width for Reinforced Concrete Beams with High-Strength Shear Reinforcement. Paper by Jung-Yoon Lee, Do Hyung Lee, Jin-Eun Lee, and Seong-Ho Choi
Flexural Behavior of Ultra-High-Performance Fiber-Reinforced Concrete Moment Connection for Precast Concrete Decks. Paper by Jun Ki Lee and Seung Hoon Lee

MEETINGS

MAY

10-12—SDC Technology Forum #39, San Antonio, TX, www.concretesdc.org

15-18—International Concrete Sustainability Conference, RILEM Symposium on Self-Compacting Concrete, and North American Conference on Design and Use of Self-Consolidating Concrete, Washington, DC, www.scc2016.com

15-19—IEEE-IAS/PCA Cement Conference, Dallas, TX, www.cementconference.org

23-25—Concrete Service Life Extension Conference, Orlando, FL, <http://concrete.nace.org>

24-25—11th Global Slag Conference, London, UK, www.globalslag.com/conferences/global-slag/introduction

UPCOMING ACI CONVENTIONS

The following is a list of scheduled ACI conventions:

2016—October 23-27, Marriott Philadelphia, Philadelphia, PA

2017—March 26-30, Detroit Marriott at the Renaissance Center, Detroit, MI

2017—October 15-19, Disneyland Hotel, Anaheim, CA

For additional information, contact:

Event Services, ACI
38800 Country Club Drive, Farmington Hills, MI 48331
Telephone: +1.248.848.3795
e-mail: conventions@concrete.org

ON COVER: 113-S36, p. 436, Fig. 1—Coupled wall specimen, before testing.

Permission is granted by the American Concrete Institute for libraries and other users registered with the Copyright Clearance Center (CCC) to photocopy any article contained herein for a fee of \$3.00 per copy of the article. Payments should be sent directly to the Copyright Clearance Center, 21 Congress Street, Salem, MA 01970. ISSN 0889-3241/98 \$3.00. Copying done for other than personal or internal reference use without the express written permission of the American Concrete Institute is prohibited. Requests for special permission or bulk copying should be addressed to the Managing Editor, *ACI Structural Journal*, American Concrete Institute.

The Institute is not responsible for statements or opinions expressed in its publications. Institute publications are not able to, nor intend to, supplant individual training, responsibility, or judgment of the user, or the supplier, of the information presented.

Papers appearing in the *ACI Structural Journal* are reviewed according to the Institute's Publication Policy by individuals expert in the subject area of the papers.

Contributions to *ACI Structural Journal*

The *ACI Structural Journal* is an open forum on concrete technology and papers related to this field are always welcome. All material submitted for possible publication must meet the requirements of the "American Concrete Institute Publication Policy" and "Author Guidelines and Submission Procedures." Prospective authors should request a copy of the Policy and Guidelines from ACI or visit ACI's website at www.concrete.org prior to submitting contributions.

Papers reporting research must include a statement indicating the significance of the research.

The Institute reserves the right to return, without review, contributions not meeting the requirements of the Publication Policy.

All materials conforming to the Policy requirements will be reviewed for editorial quality and technical content, and every effort will be made to put all acceptable papers into the information channel. However, potentially good papers may be returned to authors when it is not possible to publish them in a reasonable time.

Discussion

All technical material appearing in the *ACI Structural Journal* may be discussed. If the deadline indicated on the contents page is observed, discussion can appear in the designated issue. Discussion should be complete and ready for publication, including finished, reproducible illustrations. Discussion must be confined to the scope of the paper and meet the ACI Publication Policy.

Follow the style of the current issue. Be brief—1800 words of double spaced, typewritten copy, including illustrations and tables, is maximum. Count illustrations and tables as 300 words each and submit them on individual sheets. As an approximation, 1 page of text is about 300 words. Submit one original typescript on 8-1/2 x 11 plain white paper, use 1 in. margins, and include two good quality copies of the entire discussion. References should be complete. Do not repeat references cited in original paper; cite them by original number. Closures responding to a single discussion should not exceed 1800-word equivalents in length, and to multiple discussions, approximately one half of the combined lengths of all discussions. Closures are published together with the discussions.

Discuss the paper, not some new or outside work on the same subject. Use references wherever possible instead of repeating available information.

Discussion offered for publication should offer some benefit to the general reader. Discussion which does not meet this requirement will be returned or referred to the author for private reply.
