ACI STRUCTURAL JOURNAL

SEPTEMBER-OCTOBER 2016, V. 113, No. 5

A JOURNAL OF THE AMERICAN CONCRETE INSTITUTE
AN INTERNATIONAL TECHNICAL SOCIETY

29
279

- 883 **Flexural Behavior of External Beam-Column Reinforced Concrete Assemblages Externally Strengthened with Steel Cages**, by Giuseppe Campione, Liborio Cavaleri, and Andrea Failla
- 895 **Detailing of Cutoff Flexural Reinforcement**, by Sung-Gul Hong, Namhee Kim Hong, and Eo-Jin Lee
- 907 **Effect of Reinforcement Grade and Ratio on Seismic Performance of Reinforced Concrete Columns**, by David Trejo, Timothy B. Link, and André R. Barbosa
- 917 **Influence of High-Strength Bars on Shear Response of Containment Walls**, by Giorgio T. Proestos, Gwang-Min Bae, Jae-Yeol Cho, Evan C. Bentz, and Michael P. Collins
- 929 **Development of Precast Bridge Slabs in High-Performance Fiber-Reinforced Concrete and Ultra-High-Performance Fiber-Reinforced Concrete**, by Frédéric Lachance, Jean-Philippe Charron, and Bruno Massicotte
- 941 **Fatigue Strength of Reinforced Concrete Beams without Links under Shear Loads**, by Guenter Axel Rombach and Matthias Kohl
- 951 **Damage Effect on Concrete Columns Confined with Carbon Composites**, by Pedro Faustino and Carlos Chastre
- 963 **Strength and Serviceability Performance of Self-Consolidating Concrete Bridge Girders**, by David B. Garber, José M. Gallardo, Dean J. Deschenes, and Oguzhan Bayrak
- 973 **Modeling Steel Concrete Bond Strength Reduction Due to Corrosion**, by Arnaud Castel, Inamullah Khan, Raoul François, and Raymond Ian Gilbert
- 983 **Dynamic Strength Properties of Concrete and Reinforcing Steel Subject to Extreme Loads**, by Seongwon Hong and Thomas H.-K. Kang
- 997 **Behavior of Post-Installed Anchors Tested by Stepwise Increasing Cyclic Load Protocols**, by Philipp Mahrenholtz, Rolf Eligehausen, Tara C. Hutchinson, and Matthew S. Hoehler
- 1009 **Cyclic Testing and Assessment of Columns Containing Recycled Concrete Debris**, by F. Soleimani, M. McKay, C. S. W. Yang, K. E. Kurtis, R. DesRoches, and L. F. Kahn

Contents cont. on next page

Discussion is welcomed for all materials published in this issue and will appear ten months from this journal's date if the discussion is received within four months of the paper's print publication. Discussion of material received after specified dates will be considered individually for publication or private response. ACI Standards published in ACI Journals for public comment have discussion due dates printed with the Standard.

CONTENTS

- 1021 Seismic Column-to-Footing Connections Using Grouted Splice Sleeves**, by M. J. Ameli, Dylan N. Brown, Joel E. Parks, and Chris P. Pantelides
- 1031 Behavior of Reinforced Concrete Cylindrical Shells Subjected to External Hydrostatic Water Pressure**, by Amr I. I. Helmy and Michael P. Collins
- 1043 Strength Reduction Factors for Fiber-Reinforced Polymer-Prestressed Concrete Bridges in Flexure**, by Yail J. Kim and Raymon W. Nickle
- 1053 Seismic Behavior of Reinforced Concrete Columns with Corroded Deformed Reinforcing Bars**, by Caglar Goksu and Alper Ilki
- 1065 Earthquake-Resistant Squat Walls Reinforced with High-Strength Steel**, by Min-Yuan Cheng, Shih-Ching Hung, Rémy D. Lequesne, and Andrés Lepage
- 1077 Behavior of Reinforced Concrete Panels Strengthened with Carbon Fiber-Reinforced Polymers**, by Changhyuk Kim, Wassim M. Ghannoum, and James O. Jirsa
- 1085 Continuous Transverse Reinforcement—Behavior and Design Implications**, by B. M. Shahrooz, M. L. Forry, N. S. Anderson, H. L. Bill, and A. M. Doellman
- 1095 Shear Strength Model of Concrete Beams Based on Compression Zone Failure Mechanism**, by Kyoung-Kyu Choi, Jong-Chan Kim, and Hong-Gun Park
- 1107 Unified Approach for Minimum Reinforcement of Concrete Beams**, by Alessandro P. Fantilli, Bernardino Chiaia, and Andrea Gorino
- 1117 Punching Shear Strength of Flat Slab-Edge Column Connections with Outward Eccentricity of Loading**, by Nivea G. B. Albuquerque, Guilherme S. Melo, and Robert L. Vollum
- 1130 Discussion**
Bond of Reinforcement in Ultra-High-Performance Concrete. Paper by Jiqui Yuan and Benjamin Graybeal

UPCOMING ACI CONVENTIONS

The following is a list of scheduled ACI conventions:

2016—October 23-27, Marriott Philadelphia, Philadelphia, PA

2017—March 26-30, Detroit Marriott at the Renaissance Center, Detroit, MI

2017—October 15-19, Disneyland Hotel, Anaheim, CA

For additional information, contact:

Event Services, ACI

38800 Country Club Drive, Farmington Hills, MI 48331

Telephone: +1.248.848.3795

e-mail: conventions@concrete.org

ON COVER: 113-S75, p. 884, Fig. 2—Details of steel reinforcement in joint region.

Permission is granted by the American Concrete Institute for libraries and other users registered with the Copyright Clearance Center (CCC) to photocopy any article contained herein for a fee of \$3.00 per copy of the article. Payments should be sent directly to the Copyright Clearance Center, 21 Congress Street, Salem, MA 01970. ISSN 0889-3241/98 \$3.00. Copying done for other than personal or internal reference use without the express written permission of the American Concrete Institute is prohibited. Requests for special permission or bulk copying should be addressed to the Managing Editor, *ACI Structural Journal*, American Concrete Institute.

The Institute is not responsible for statements or opinions expressed in its publications. Institute publications are not able to, nor intend to, supplant individual training, responsibility, or judgment of the user, or the supplier, of the information presented.

Papers appearing in the *ACI Structural Journal* are reviewed according to the Institute's Publication Policy by individuals expert in the subject area of the papers.

Contributions to *ACI Structural Journal*

The *ACI Structural Journal* is an open forum on concrete technology and papers related to this field are always welcome. All material submitted for possible publication must meet the requirements of the "American Concrete Institute Publication Policy" and "Author Guidelines and Submission Procedures." Prospective authors should request a copy of the Policy and Guidelines from ACI or visit ACI's website at www.concrete.org prior to submitting contributions.

Papers reporting research must include a statement indicating the significance of the research.

The Institute reserves the right to return, without review, contributions not meeting the requirements of the Publication Policy.

All materials conforming to the Policy requirements will be reviewed for editorial quality and technical content, and every effort will be made to put all acceptable papers into the information channel. However, potentially good papers may be returned to authors when it is not possible to publish them in a reasonable time.

Discussion

All technical material appearing in the *ACI Structural Journal* may be discussed. If the deadline indicated on the contents page is observed, discussion can appear in the designated issue. Discussion should be complete and ready for publication, including finished, reproducible illustrations. Discussion must be confined to the scope of the paper and meet the ACI Publication Policy.

Follow the style of the current issue. Be brief—1800 words of double spaced, typewritten copy, including illustrations and tables, is maximum. Count illustrations and tables as 300 words each and submit them on individual sheets. As an approximation, 1 page of text is about 300 words. Submit one original typescript on 8-1/2 x 11 plain white paper, use 1 in. margins, and include two good quality copies of the entire discussion. References should be complete. Do not repeat references cited in original paper; cite them by original number. Closures responding to a single discussion should not exceed 1800-word equivalents in length, and to multiple discussions, approximately one half of the combined lengths of all discussions. Closures are published together with the discussions.

Discuss the paper, not some new or outside work on the same subject. Use references wherever possible instead of repeating available information.

Discussion offered for publication should offer some benefit to the general reader. Discussion which does not meet this requirement will be returned or referred to the author for private reply.
