

International Journal of COMPUTATIONAL INTELLIGENCE RESEARCH AND APPLICATIONS

Volume 11

Number 2

July-December 2017

Contents

1. Packet Loss Control using Early Random Control at the Network Edge 135-141
Pavankrishna K. Singh B. and M. Sreerama Murty
2. Security Enhanced Cloud Computing: From Single to Multi-Clouds 143-151
K. B. V. Rama Narasimham and Y. Siva Prasad
3. Gaussian Mixture Model Application for Image Equalization and 153-161
Contrast Enrichment
Anil Babu and P. A. Abdul Saleem
4. Accomplishing Secure Personal Health Records Using Attribute 163-171
Based Encryption in Cloud Computing
A. Ram Prasad Reddi and K. Venkateswara Rao
5. Ranking Adaptability: A Quantitative Measure in Ranking 173-180
Model Adaptation
J. Rukesh Babu and S. Suresh
6. DCD Algorithm: A Fast Method to Detect the Cuts in WSNs 181-189
N. V. Sudhakar and G. Draksha
7. A Study of Various Risk Extenuating Techniques in 191-197
MANET Atmosphere
M. Chaitanya Kishor Reddi and S. M. Bhasha
8. An Appraisal on the Architectures of Data Security in Cloud 199-206
Storage Infrastructure
B. Raju and Ch. Aruna
9. Intrusion Detection in Cloud for Mobile Phones 207-213
P. Manoj Kumar and P. Anitha Rani
10. An Algorithm for Automatic Detection of Aliases Disambiguation 215-221
and Extracting Personal Names
O. Ganga and P. Aleemulla Khan
11. Comparative Study of Content Based Image Retrieval by 223-232
Multi Features
Arpita Mathur and Rajeev Mathur
12. Query based Video Retrieval using Walsh with Seven Transforms 233-242
to form Hybrid Wavelet Transform
Rajeev Mathur and Sinora Banker Ghosalkar
