ACI MATERIALS JOURNAL

MARCH-APRIL 2015, V. 112, No. 2

A JOURNAL OF THE AMERICAN CONCRETE INSTITUTE
AN INTERNATIONAL TECHNICAL SOCIETY

21
277

- 179 **Relative Proportioning Method for Controlled Low-Strength Material**, by Ricardo Serpell, Jacob Henschen, Jeffery Roesler, and David Lange
- 189 **Influence of Thixotropy on Performance of Grouts Placed Using Vacuum Injection Techniques**, by Joseph J. Assaad, Yehia Daou, and Jacques Harb
- 199 **Double-Punch Test of Fiber-Reinforced Concrete: Effect of Specimen Origin and Size**, by Carlos Aire, Sergio Carmona, Antonio Aguado, and Climent Molins
- 209 **Use of Biomass and Co-Fired Fly Ash in Concrete**, by Christopher R. Shearer and Kimberly E. Kurtis
- 219 **Photocatalytic Efficiency of Cement-Based Materials: Demonstration of Proposed Test Method**, by Amal R. Jayapalan, BoYeon Lee, Eva M. Land, Michael H. Bergin, and Kimberly E. Kurtis
- 229 **Experimental Investigation on Quantitative Nanomechanical Properties of Cement Paste**, by Wengui Li, Jianzhuang Xiao, Shiho Kawashima, Gajendra S. Shekhawat, and Surendra P. Shah
- 239 **Controlled Low-Strength Materials Composed Solely of By-Products**, by Ceki Halmen and Harsh Shah
- 247 **Durability Performance of Carbon Fiber-Reinforced Polymer in Repair/Strengthening of Concrete Beams**, by J. Deng, J. Eisenhauer Tanner, D. Mukai, H. R. Hamilton, and C. W. Dolan
- 259 **Effect of Type, Size, and Dosage of Nanosilica and Microsilica on Properties of Cement Paste and Mortar**, by Mohammad Bolhassani and Mohammadreza Samani
- 267 **Effect of Slag Cement on Drying Shrinkage of Concrete**, by Jiqui Yuan, Will Lindquist, David Darwin, and JoAnn Browning
- 277 **Simplified Mixture Design for Production of Self-Consolidating Concrete**, by T. Hemalatha, Ananth Ramaswamy, and J. M. Chandra Kishen
- 287 **A Comparison of Methods for Determining Carbonation Depth in Fly Ash-Blended Cement Mortars**, by Ricardo Herrera, Stephen D. Kinrade, and Lionel J. J. Catalan
- 295 **In-Place Performance of Severely Deteriorated Pervious Concrete: A Case Study**, by Yail J. Kim, Shahlaa Al Wakeel, Adel Gaddafi, and Young-Jin Cha
- 305 **Effects of Nanosilica Addition on Increased Thermal Stability of Cement-Based Composite**, by Seungmin Lim and Paramita Mondal

Contents cont. on next page

Discussion is welcomed for all materials published in this issue and will appear ten months from this journal's date if the discussion is received within four months of the paper's print publication. Discussion of material received after specified dates will be considered individually for publication or private response. ACI Standards published in ACI Journals for public comment have discussion due dates printed with the Standard.

Annual index published online at <http://concrete.org/Publications/ACIMaterialsJournal>.

CONTENTS

317 Discussions

Workability and Mechanical Properties of Heavyweight Magnetite Concrete. Paper by Keun-Hyeok Yang, Jae-Sung Mun, and Ho Lee

Properties of Strength and Pore Structure of Reactive Powder Concrete Exposed to High Temperature. Paper by Hyoung-Seok So, Je-Bang Yi, Janchivdorj Khulgadai, and Seung-Young So

323 Reviewers in 2014

MEETINGS

MARCH

25-27—International Concrete Repair Institute 2015 Spring Convention, New York City, NY, www.icri.org/events/upcomingevents.asp

MARCH/APRIL

30-2—Concrete Sawing & Drilling Association Convention and Tech Fair, St. Petersburg, FL, www.csda.org/events/event_details.asp?id=444478&group

APRIL

13-15—BEST Conference Building Enclosure Science & Technology™, Kansas City, MO, www.nibs.org/?page=best

26-29—2015 Post-Tensioning Institute Convention, Houston, TX, www.post-tensioning.org/page/pti-convention

26-30—57th Annual IEEE-IAS/PCA Cement Industry Technical Conference, Toronto, ON, Canada, www.cementconference.org

MAY

3-7—International Cement Microscopy Association Annual Conference, Seattle, WA, www.cemmicro.org

4-7—2015 World of Coal Ash Conference, Nashville, TN, www.worldofcoalash.org

11-13—2015 International Concrete Sustainability Conference, Miami, FL, www.concretesustainabilityconference.org

14-16—The American Institute of Architects Convention, Atlanta, GA, <http://convention.aia.org/event/homepage.aspx>

14-17—The Masonry Society 2015 Spring Meetings, Denver, CO, www.masonrysociety.org/html/calendar/index.htm

THE CONCRETE CONVENTION AND EXPOSITION: FUTURE DATES

2015—April 12-15, Marriott & Kansas City Convention Center, Kansas City, MO

2015—November 8-12, Sheraton, Denver, CO

2016—April 17-21, Hyatt & Wisconsin Center, Milwaukee, WI

2016—October 23-27, Marriott Philadelphia, Philadelphia, PA

ON COVER: 112-M32, p. 312, Fig. 11—Carbonation test using phenolphthalein indicator on: (a) broken surface of P500-prolonged; and (b) cross section of NS500-prolonged.

Contributions to ACI Materials Journal

The *ACI Materials Journal* is an open forum on concrete technology and papers related to this field are always welcome. All material submitted for possible publication must meet the requirements of the "American Concrete Institute Publication Policy" and "Author Guidelines and Submission Procedures." Prospective authors should request a copy of the Policy and Guidelines from ACI or visit ACI's website at www.concrete.org prior to submitting contributions.

Papers reporting research must include a statement indicating the significance of the research.

The Institute reserves the right to return, without review, contributions not meeting the requirements of the Publication Policy.

All materials conforming to the Policy requirements will be reviewed for editorial quality and technical content, and every effort will be made to put all acceptable papers into the information channel. However, potentially good papers may be returned to authors when it is not possible to publish them in a reasonable time.

Discussion

All technical material appearing in the *ACI Materials Journal* may be discussed. If the deadline indicated on the contents page is observed, discussion can appear in the designated issue. Discussion should be complete and ready for publication, including finished, reproducible illustrations. Discussion must be confined to the scope of the paper and meet the ACI Publication Policy.

Follow the style of the current issue. Be brief—1800 words of double spaced, typewritten copy, including illustrations and tables, is maximum. Count illustrations and tables as 300 words each and submit them on individual sheets. As an approximation, 1 page of text is about 300 words. Submit one original typescript on 8-1/2 x 11 plain white paper, use 1 in. margins, and include two good quality copies of the entire discussion. References should be complete. Do not repeat references cited in original paper; cite them by original number. Closures responding to a single discussion should not exceed 1800-word equivalents in length, and to multiple discussions, approximately one half of the combined lengths of all discussions. Closures are published together with the discussions.

Discuss the paper, not some new or outside work on the same subject. Use references wherever possible instead of repeating available information.

Discussion offered for publication should offer some benefit to the general reader. Discussion which does not meet this requirement will be returned or referred to the author for private reply.
